

Vancouver, British Columbia--(Newsfile Corp. - October 25, 2016) - [Canamex Resources Corp.](#) (TSXV: CSQ) (OTCQX: CNMXD) (FSE: CX6) ("Canamex" or the "Company") is pleased to announce that the Company closed today the first tranche of two private placements for gross proceeds of \$4,955,350, further to its October 17, 2016 news release. All figures below are in Canadian dollars unless otherwise specified.

Financing of Secured Convertible Debentures for \$4,239,000 Principal Amount ("Debenture Offering")

Canamex today raised gross proceeds of \$4,239,000 in the first tranche of the Debenture Offering. The Company issued a principal amount of \$4,239,000 of secured convertible debentures ("Debentures"), maturing in three years from today, or on October 25, 2019 ("Debenture Maturity Date").

From and after today until the Debenture Maturity Date, the Debentures will be convertible into common shares of Canamex ("Shares") at the option of the holder at a conversion price of \$0.16 per Share (the "Conversion Price"), being 6,250 shares per \$1,000 principal amount of Debentures. If all of the Debentures were converted, this would result in the issuance of a total of 26,493,750 Shares.

Interest on the Debentures shall be paid annually in arrears, at an annual interest rate of 7%. The Company will have the option, in its sole discretion, to pay the interest in Shares of the Company, subject to acceptance by the TSX Venture Exchange ("TSX-V"). In the event Canamex opts to pay the interest in Shares instead of cash, the interest rate shall increase to 10% per annum in respect of such interest payment in Shares.

In the event that the Company has not entered into a definitive joint venture agreement in respect of the Bruner Gold Property ("JV Agreement") on or before the date that is six months after the closing date of the Debenture Offering, the interest rate on the Debentures will thereafter be increased by 1% and will be subsequently increased by an additional 1% immediately following the end of each six month period during the term of the Debentures if at such time the JV Agreement has not been entered into.

In addition, the holders of the Debentures received a total of 26,493,750 warrants ("Debenture Warrants"). The Debenture Warrants have a strike price of \$0.20 and expire on the Debenture Maturity Date.

On a date that is 24 months after closing of the Debenture Offering, or on October 25, 2018, the Debenture holders may request that the Company repay the Debentures within 20 business days ("Put Feature"). The Debenture holders will only be allowed to utilize the Put Feature on this one specific date.

After 24 months from closing of the Debenture Offering, or after October 25, 2018, if the Shares of Canamex trade at or above \$0.64 on a 30-day VWAP (volume-weighted average price) basis on the TSX-V, then the Company can force the conversion of the Debentures by giving the Debenture holders 10 days' notice.

The Debentures shall have a first ranking security over the Company's interest in its joint venture with Provox Resources Inc. ("Provox") in respect of the Bruner Gold Property. While Canamex and Provox are in a joint venture at present, a formal joint venture agreement between the parties has yet to be completed.

In terms of use of proceeds, the Company is pleased to announce that it has repaid a total of \$1,898,100 of the secured convertible debentures that were issued on October 20 and November 6, 2015 (please refer to the Company's news releases of those dates). More specifically, the Company repaid a total principal amount of \$1,665,000 of these secured convertible debentures, together with \$233,100 (or 14% of the principal amount) in interest and penalties. The remaining principal amount of these secured convertible debentures of \$250,000, together with \$35,000 in interest in penalties, will be repaid in the second tranche closing of the Debentures, which the Company expects to close over the next two weeks. Additional proceeds from such second tranche will be used for permitting, drilling and metallurgy at the Company's Bruner Gold Property in Nye County, Nevada, and for general working capital.

In connection with the Debenture Offering, Canamex paid one finder a cash fee of \$16,380 and issued 307,125 finder's warrants, which have terms similar to the Debenture Warrants described above.

Concept Capital Management Limited ("CCM"), an insider of the Company, subscribed for a total principal amount of \$3,400,000 and received 21,250,000 Debenture Warrants in the Debenture Offering. CCM previously subscribed for a total principal amount of \$1,500,000 in last year's financing of secured convertible debentures. The Debenture Offering is a "related party transaction" of the Company under Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions ("MI 61-101") to the extent of CCM's participation in the Debenture Offering. The independent directors of the Company determined that the participation in the Debenture Offering by CCM is exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 in reliance on the exemptions set forth in sections 5.5(b) (issuer not listed on a senior market) and 5.7(1)(e) (financial hardship), respectively, of MI 61-101. Further details will be provided in the Company's material change report to be filed on SEDAR www.sedar.com. On completion of the Debenture Offering and the Unit Offering

(defined below), CCM holds approximately 53% of the Company's outstanding Shares, calculated on a partially-diluted basis assuming the conversion of the entire principal amount of CCM's Debentures and the exercise of all of CCM's Debenture Warrants.

Financing of Units for Gross Proceeds of \$716,350 ("Unit Offering")

Concurrent with the Debenture Offering, the Company closed today as well the first tranche of a non-brokered private placement for gross proceeds of \$716,350. In connection with the Unit Offering, the Company issued a total of 4,477,188 units of the Company ("Units") at a price of \$0.16 per Unit ("Unit Offering").

Each Unit is comprised of one (1) common share and one (1) transferable share purchase warrant ("Unit Warrant"). Each Unit Warrant entitles the holder to purchase one (1) additional common share (the "Unit Warrant Share") at a price of \$0.20 per Unit Warrant share for five (5) years from the date of issuance of the Unit Warrant.

Insiders of the Company, or companies controlled by insiders of the Company, subscribed for a total of 1,563,750 Units, for total proceeds of \$250,200 of the Unit Offering (the "Related Party Transaction"). All of the independent directors of the Company, acting in good faith, have determined that the fair market value of the securities being issued and the consideration paid is reasonable and, with the value of the Related Party Transaction being less than 25% of the Company's market capitalization, is exempt from the formal valuation and minority shareholder approval requirements of the MI 61-101.

The Company paid to one qualified party a finder's fee of \$2,450 and issued 15,312 compensation warrants, which have terms similar to the Unit Warrants described above.

The proceeds from the Unit Offering will be used for permitting, drilling and metallurgy at the Company's Bruner Gold Property in Nye County, Nevada, and for general working capital.

With respect to both the Debenture Offering and the Unit Offering, under applicable Canadian securities law the securities and underlying securities to be issued will be subject to a hold period of four months and a day from the date of issuance of the securities, and will be subject to such further restrictions on resale as may apply under applicable foreign securities laws.

The Company intends to close a second tranche for each of the Debenture Offering and Unit Offering for maximum gross proceeds of \$5,200,000 and \$1,000,000, respectively. Shareholders or members of the investing public who have questions about these offerings should contact the Company directly at the coordinates below.

Drilling Update

As indicated above, Canamex intends to use the proceeds from the Debenture Offering and the Unit Offering to begin permitting of the Bruner Gold Property and to conduct more drilling. With the first tranche of these private placements now closed, the Company has contacted its drillers and geological team and will be conducting a drilling campaign this fall. Specific details of this drilling campaign will be communicated shortly to shareholders by the President and Chief Operating Officer of Canamex, Greg Hahn.

Mark Billings, Chairman and CEO of Canamex, commented, "Together with the management and board of Canamex, I would like to thank all of those who participated in our Debenture Offering and Unit Offering. The funds raised from these private placements allow the Company to focus on two value-creating initiatives: permitting and drilling. The beginning of the permitting process at the Bruner Gold Property will enable us to take another step towards development of our Property. At the same time, we have only drilled about 20% of the identified targets on the Bruner Gold Property. We believe that there is still more potential at Bruner. We are excited about restarting drilling on the Property and look forward to sharing the details of our fall campaign with our shareholders and investors shortly."

ON BEHALF OF THE BOARD OF DIRECTORS

CAUTION CONCERNING FORWARD-LOOKING STATEMENTS

This news release includes certain forward-looking statements or information. All statements other than statements of historical fact included in this release are forward-looking statements that involve various risks and uncertainties. Forward-looking statements in this news release include statements in relation to the timing, cost and other aspects of the planned 2016 program on the Bruner property; the planned closing of the second tranche private placements of the Debentures and the Units (together, the "Offerings"); the potential for development of the mineral resources; the potential mineralization and geological merits of the Bruner property; and other future plans, objectives or expectations of the Company. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from the Company's plans or expectations include the risk that the Company will be unable to complete the planned closing of the Offerings due to failure to obtain necessary regulatory approvals or otherwise; the risk that actual results of current and planned exploration activities, including the results of the Company's 2016 drilling program(s) on the Bruner property, will not be consistent with the Company's expectations; the geology, grade and continuity of any mineral deposits and the risk of unexpected variations in mineral resources, grade and/or recovery rates; fluctuating metals prices; possibility of accidents, equipment breakdowns and delays during exploration; exploration cost overruns or unanticipated costs and expenses; uncertainties involved in the interpretation of drilling results and geological tests; availability of capital and financing required to continue the Company's future exploration programs and preparation of geological reports and studies; delays in the preparation of geological reports and studies; the metallurgical characteristics of mineralization contained within the Bruner property are yet to be fully determined; general economic, market or business conditions; competition and loss of key employees; regulatory changes and restrictions including in relation to required permits for exploration activities (including drilling permits) and environmental liability; timeliness of government or regulatory approvals; and other risks detailed herein and from time to time in the filings made by the Company with securities regulators. In connection with the forward-looking information contained in this news release, the Company has made numerous assumptions, including that the Company's 2016 programs will proceed as planned and within budget. The Company expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except as otherwise required by applicable securities legislation.

The securities referred to in this news release have not been, nor will they be, registered under the United States Securities Act of 1933, as amended, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons absent U.S. registration or an applicable exemption from the U.S. registration requirements.

This news release does not constitute an offer for sale of securities for sale, nor a solicitation for offers to buy any securities. Any public offering of securities in the United States must be made by means of a prospectus containing detailed information about the company and management, as well as financial statements.
