

Durango Resources Inc. Develops Limestone Branding

15.11.2016 | [The Newswire](#)

Vancouver, November 15, 2016 - [Durango Resources Inc.](#) (TSX.V-DGO), (the "Company" or "Durango") reports that further to its news release of November 10, 2016, it has created logo and branding materials for packaging its limestone located on the northwest coast of British Columbia for agricultural use.

The label "ever bloom" represents greater crop yield due to the fertility of the plants by using agricultural limestone as a soil conditioner. The limestone activates when in contact with water and then dissolves into the soil, lowering the acidity and raising the pH which is essential for crop yields. This process can significantly boost profit potential of farms and can increase the fertilizer efficiency up to 50% which is desirable for greater crop yields. The lime also adds desirable nutrients to the soils such as calcium, magnesium and phosphorus which improves soil structure, increases rates of air and water infiltration, improves plant cell wall formation and can help to regulate the nutrient uptake through the roots of the plant producing the "ever bloom".

Marcy Kiesman, CEO comments, "Durango is speaking with different groups who may benefit from using the BC limestone for agricultural use and for additional green-tech solutions. While Durango awaits the large-scale LNG markets to open up in northern BC, the Company is focused to initiate smaller niche market sales."

About Durango

Durango is a natural resources company engaged in the acquisition and exploration of mineral properties. The Company has a 100% interest in the Mayner's Fortune and Smith Island limestone properties in northwest British Columbia, the Decouverte and Trove gold properties in the Abitibi Region of Quebec, and certain lithium properties near the Whabouchi project, the Buckshot graphite property near the Miller Mine in Quebec, the Dianna Lake silver project in northern Saskatchewan, the Whitney Northwest property near the Lake Shore Gold and Goldcorp joint venture in Ontario, as well as three sets of claims in the Labrador nickel corridor.
