

NOT FOR DISTRIBUTION IN THE UNITED STATES OR TO U.S. NEWSWIRE SERVICES

[Goldstar Minerals Inc.](#) ("Goldstar" or the "Corporation") (TSX VENTURE:GDM) is pleased to announce that its first phase diamond drill program was completed today with the demobilization of equipment and personnel currently under way. The Corporation drilled 11 holes totaling 2,580 metres.

Goldstar is focused on developing deposits that contain technology metals such as high-value tungsten, tellurium, antimony, tin and bismuth, in leading mining jurisdictions in Canada.

Next steps

The Corporation expects to release its first drilling results by mid-January 2017.

Benoit Moreau, President and CEO of Goldstar comments: "The Corporation is very pleased to complete its first phase diamond drilling program and looks forward to receiving the assay results."

Disclosure

The technical information contained in this news release has been reviewed and approved by Benoit Moreau, P.Eng., CEO and director of the company. Mr. Moreau is a qualified person as defined by National Instrument 43-101, Standards of Disclosure for Mineral Projects.
