

CobalTech Mining Inc. Announces LOI to Acquire Fully Permitted Cobalt Processing Facility in Cobalt

21.02.2017 | [Marketwired](#)

TORONTO, February 21, 2017 - [CobalTech Mining Inc.](#) (TSX VENTURE: CSK) (the "Company" or "CobalTech"), is pleased to announce that it has signed a Letter of Intent to acquire a fully permitted Cobalt Processing Facility, situated in the settlement of North Cobalt, Ontario, Canada, and strategically situated near the Company's current portfolio of cobalt mineral properties.

This acquisition will enable CobalTech to become one of the first companies in North America to be able to process and refine cobalt. The processing facility is currently fully permitted and production may be expanded to a maximum of 4000t/day before additional permitting is required.

The Company has completed preliminary due diligence and has retained engineering firm BBA of Montréal, Québec to assist in the final process. The Company conducted full site visits with the engineering firm, Story Environmental of New Liskeard, Ontario, which has been responsible for all environmental monitoring and permitting for the last 10 years, and also assisted in the process and provided copies of the compliance reports and various permits. It is anticipated that the transaction will be completed within 60 days.

Under the terms of the LOI signed February 10th, 2017, the Company has the option to buy the refinery. The full terms will be set forth in the final agreement. The Seller remains responsible for debts resulting from previous operations.

"This acquisition will position CobalTech ahead of its competition in supplying the growing demand for ethically sourced cobalt," comments Bruce Bragagnolo, Chairman of CobalTech.

"CobalTech's vision of being one the first companies to process cobalt in North America is taking a major advancement with the purchase of this facility. This completes the goal of vertical integration from an operations standpoint. CobalTech will now be assessing whether to proceed alone or actively start looking for a strategic partner to help advance the project," said Antoine Fournier, President and CEO of CobalTech.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the securities in any state in which such offer, solicitation or sale would be unlawful. The securities issued, or to be issued, under the Offering have not been, and will not be, registered under the United States Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements.

About CobalTech Mining:

[CobalTech Mining Inc.](#) is a North American cobalt company in Ontario, Canada. The company owns and operates the Duncan Kerr Property located outside of Cobalt, Ontario, in an area known for its geological setting responsible for unique mineralization composed of quartz-carbonate veins enriched in silver-cobalt-nickel-bismuth-arsenic. The company is committed to operating within the strict environmental, health, and safety framework governed by the e3 Plus regulation put forth by the Prospectors & Developers Association of Canada (PDAC).

ON BEHALF OF THE BOARD

Antoine Fournier
Chief Executive Officer
