

Insider dealing charges brought against a member of Talvivaara's Executive Committee

[Talvivaara Mining Company Plc](#) (the "Company") has been notified that charges have been brought against a member of its Executive Committee on a case concerning alleged misuse of insider information.

The Company is not a party to the case, but the Company's disclosure practices in 2012 - 2013 have been heard in the Helsinki District Court in consequence of the charges brought by the prosecutor in May 2016. To the Company's understanding this insider dealing charge concerns the same time period. The main hearing phase of the disclosure case has ended, but no decision in the case has been given yet. The Company's view is that the brought charges of which the Company has now been notified have no impact on the Company or its financial position nor do they give any reason to reassess the composition of the Company's Executive Committee.
