This will be a live, interactive online event where investors are invited to ask international companies their questions in real-time and to download a company's information in their "virtual trade booth" in the Exhibits section. If attendees are not able to join the event live on the day of the conference, an on-demand archive will be available for 90 days.

Participation is free of charge.

It is recommended that investors pre-register to save time and receive event updates.

About Rare Earth Minerals Plc

Rare Earth Minerals invests across the globe, principally in lithium mining projects. Its primary strategy is to take significant economic stakes in upstream exploration and development assets within strategic metals. We identify assets that have strategic cost advantages that are not replicable, with the aim of achieving lower quartile production costs. The combination of this approach and seeking value opportunities allows us to identify projects capable of achieving high rates of return.
