

CALGARY, ALBERTA--(Marketwired - Mar 17, 2017) - Suncor today confirms it has received notice from the Alberta Energy Regulator that it has denied the Suncor Base Plant Tailings Management Framework application and related Millennium Operational Amendment application.

The tailings application, which was submitted in April 2016, is a regulated requirement under the Government of Alberta's Tailings Management Framework. Suncor amended its Millennium Operational application to reflect the tailings application. Suncor will continue to work with the regulator in order to move the regulatory process forward.

*Suncor Energy is Canada's leading integrated energy company. Suncor's operations include oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the [Petro-Canada](#) brand. A member of Dow Jones Sustainability indexes, FTSE4Good and CDP, Suncor is working to responsibly develop petroleum resources while also growing a renewable energy portfolio. Suncor is listed on the UN Global Compact 100 stock index and the Corporate Knights' Global 100. Suncor's common shares (symbol: SU) are listed on the Toronto and New York stock exchanges.*
