

Deutsche Rohstoff: Cub Creek commences with new drilling

Mannheim/Denver. Cub Creek Energy commenced the drilling of horizontal wells from its Hailey pad in the DJ Basin. Drilling will continue through the end of May and with well completions thereafter. Start of production is planned for the third quarter.

Mannheim, 27 March 2017

Deutsche Rohstoff identifies, develops and divests attractive resource projects in North America, Australia and Europe. The focus is on the development of oil and gas opportunities within the United States. Metals, such as gold, copper, rare earth elements, tungsten and tin complete our portfolio.
