

# Encanto Potash Activates Potash Trading Company in Anticipation of Exports to India

30.03.2017 | [CNW](#)

VANCOUVER, March 30, 2017 - [Encanto Potash Corp.](#) ("Encanto" or the "Company") (TSXV: EPO) is pleased to confirm the incorporation of the Encanto Potash Trading Company (the "Trading Company"), a wholly owned subsidiary of Encanto Potash. The Trading Company will have the designated use for the trading of potash sourced from producing properties that are currently under utilized, alongside the concurrent development of the Reserves located on the Muskowekwan First Nation ("MFN") property.

Encanto's President Stavros Daskos stated that: "In addition to providing India with potash pre-mine construction, this sole-purpose vehicle enables Encanto to structure everything from short to long term supply agreements with existing producers, to envisioned merger and acquisition type transactions that would allow it to increase its supply capacity beyond the Company's flagship MFN property."

Chief Bellerose stated: "Encanto has included the Muskowekwan First Nation in the profit participation of the Trading Company and MFN is pleased that Muskowekwan Resources Ltd. continues its partnership with Encanto that stretches beyond the joint venture that we originally executed".

Stavros Daskos further stated that: "Recent discussions with suppliers for immediate supply of potash to India indicate that the price of potash is on the rise. There is middle ground to mutually benefit from, given Encanto's market access through its export opportunity agreements and the currently under utilized assets of others."

## ABOUT ENCANTO:

[Encanto Potash Corp.](#) is a TSX Venture Exchange listed and traded Canadian resource company engaged in the development of potash properties in the Province of Saskatchewan, Canada, the largest producing potash region in the world. Through a joint venture agreement with Muskowekwan Resources Ltd. on our flagship property, Encanto has a project land package which totals approximately 61,000 largely contiguous acres. A Pre-Feasibility Study dated February 28, 2013 titled "[Encanto Potash Corp.](#) Technical Report Summarizing the Preliminary Feasibility Study for the Muskowekwan First Nations Home Reserve Project in South Eastern Saskatchewan, Canada" confirms the Proven and Probable KCl Reserves totaling 162 MMt grading 28% (average) which supports primary and secondary mining for over 50 years at an assumed annual rate extraction rate of 2.8 million tonnes.
