

Shares Outstanding: 271,539,638

TORONTO, April 5, 2017 /CNW/ - Aquila Resources Inc. (TSX: AQA) ("Aquila"), announced today that it has received the third of four necessary permits from the Michigan Department of Environmental Quality ("MDEQ") for its zinc- and gold-rich Back Forty Project. The National Pollutant Discharge Elimination Permit ("NPDES Permit") was issued by the MDEQ on April 5, 2017, following a comprehensive public commentary period that ended on November 3<sup>rd</sup>, 2016 including a review by the federal Environmental Protection Agency completed on February 24<sup>th</sup>, 2017.

"Aquila is very proud of this milestone achievement given that the NPDES permit satisfies both State and Federal regulators as it pertains to protecting the Menominee River and surrounding watershed," said Barry Hildred, CEO of Aquila Resources. "We will continue our efforts with the State of Michigan and local communities to demonstrate our commitment to environmental responsibility and sustainable resource development that benefits all stakeholders."

The NPDES permit regulates the effluent limitations and monitoring requirements of water discharged to the Menominee River during mine operation. The review process and permit decisions were completed in compliance with the provisions of the Federal Water Pollution Control Act, Part 31, Water Resources Protection, of the Natural Resources and Environmental Protection Act, Part 41, Sewerage Systems.

Aquila received their Mining Permit and Air Use permit on December 28<sup>th</sup>, 2016 and is currently working with the MDEQ to finalize the Wetlands Protection Permit expected later this year.

#### Qualified Person

This news release was reviewed and approved by Thomas O. Quigley, Vice President of Exploration and Senior Technical Advisor for the Back Forty Project. By virtue of his education, experience, and professional association, Mr. Quigley is considered a Qualified Person as defined under National Instrument 43-101. Information regarding data verification is provided in Aquila's Annual Information Form dated March 15, 2017.

#### About Aquila Resources

[Aquila Resources Inc.](#) (TSX: AQA) is a development-stage company with strategic assets in the Great Lakes Region. The company's experienced management team is currently focused on advancing permitting activities for its 100%-owned gold- and zinc-rich Back Forty Project in Michigan.

Aquila's flagship Back Forty Project is a volcanogenic massive sulfide (VMS) deposit located along the mineral-rich Penokean Volcanic Belt in Michigan's Upper Peninsula. In its updated Preliminary Economic Assessment filed in September 2014, Back Forty demonstrated strong economics with a pre-tax NPV of \$282 million (\$210.8 million after-tax) and a pre-tax IRR of 38.8% (32% after-tax) based on mining 16.1M tonnes of measured, indicated, and inferred resources over the 16-year life of mine, of which 12.5M tonnes will be open-pit and 3.6M tonnes will be underground.

This press release contains certain forward-looking statements within the meaning of applicable Canadian securities legislation. In certain cases, forward-looking statements can be identified by the use of words such as "plans", "expects" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" and similar expressions suggesting future outcomes or statements regarding an outlook.

Forward-looking statements relate to any matters that are not historical facts and statements of our beliefs, intentions and expectations about developments, results and events which will or may occur in the future, without limitation, statement with respect to: (i) the economic analysis contained in the PEA; (ii) the development plan of the PEA and results thereof; (iii) capital expenditure programs; (iv) the quality or quantity of the mineral resources subject to estimates by Aquila; and (v) work plans to be conducted by Aquila.

These and other forward-looking statements and information are subject to various known and unknown risks and uncertainties, many of which are beyond the ability of Aquila to control or predict, that may cause their actual results, performance or achievements to be materially different from those expressed or implied thereby, and are developed based on assumptions about such risks, uncertainties and other factors set out herein. Aquila expressly disclaims any obligation to update forward-looking information except as required by applicable law. Such forward-looking information represents Aquila's best judgment based on information currently available. No forward-looking statement can be guaranteed and actual future results may vary materially. Accordingly, readers are advised not to place undue reliance on forward-looking statements or information. Furthermore, mineral resources that are not mineral reserves do not have demonstrated economic viability.
