TORONTO, ONTARIO--(Marketwired - Apr 7, 2017) -

All amounts are in United States dollars, unless otherwise stated.

Alamos Gold Inc. (TSX:AGI)(NYSE:AGI) ("Alamos" or the "Company") today announced that it has filed a technical report for its Aği Daği and Camyurt gold projects, located in the Canakkale Province in northwestern Turkey. The report includes results from the feasibility study conducted on Aği Daği and preliminary economic assessment completed on Camyurt.

The report was prepared in accordance with National Instrument 43-101 - Standards for Disclosure for Mineral Projects and supports the disclosure outlined in Alamos' news release dated February 22, 2017. The report is available under the Company's profile on SEDAR at www.sedar.com and on the Alamos website at www.alamosgold.com.

About Alamos

Alamos is a Canadian-based intermediate gold producer with diversified production from three operating mines in North America. This includes the Young-Davidson mine in northern Ontario, Canada and the Mulatos and El Chanate mines in Sonora State, Mexico. Additionally, the Company has a significant portfolio of development stage projects in Canada, Mexico, Turkey, and the United States. Alamos employs more than 1,300 people and is committed to the highest standards of sustainable development. The Company's shares are traded on the TSX and NYSE under the symbol "AGI".
