About Intrepid

Intrepid Potash (NYSE:IPI) is the only U.S. producer of muriate of potash. Potash is applied as an essential nutrient for healthy crop development, utilized in several industrial applications and used as an ingredient in animal feed. Intrepid also produces a specialty fertilizer, Trio®, which delivers three key nutrients, potassium, magnesium, and sulfate, in a single particle.

Intrepid serves diverse customers in markets where a logistical advantage exists; and is a leader in the utilization of solar evaporation production, one of the lowest cost, environmentally friendly production methods for potash. Intrepid's production comes from three solar solution potash facilities and one conventional underground Trio® mine.

Intrepid routinely posts important information, including information about upcoming investor presentations and press releases, on its website under the Investor Relations tab.
