

CALGARY, ALBERTA--(Marketwired - April 17, 2017) - Suncor today announced the release of *Suncor's Climate Report: Resilience Through Strategy*, which provides information on how the company assesses climate risk and outlines its plans to build long-term resilience in a low-carbon economy.

"Energy production and consumption exist in a broad and complex social, financial and political system that will determine the pace and scale of the energy system transformation," said Steve Williams, president and chief executive officer. "This report is intended to provide insight into how we see the energy transition unfolding and our strategy through that transition."

The climate report is available on Suncor's website at suncor.com/investor-centre. In future years, the report will be incorporated into Suncor's Report on Sustainability.

Suncor Energy is Canada's leading integrated energy company. Suncor's operations include oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the [Petro-Canada](#) brand. A member of Dow Jones Sustainability indexes, FTSE4Good and CDP, Suncor is working to responsibly develop petroleum resources while also growing a renewable energy portfolio. Suncor is listed on the UN Global Compact 100 stock index and the Corporate Knights' Global 100. Suncor's common shares (symbol: SU) are listed on the Toronto and New York stock exchanges.
