The Windfall East Property is approximately five kilometres southeast of [Osisko Mining Corp.](#)'s (TSX-OSK) Black Dog Au-Ag-Cu discovery and several kilometres south of BonTerra Resources Inc.'s (TSX.V-BTR) Gladiator Project. Limited exploration has been conducted over the Windfall East Property which totals an area of over 2,000 hectares. A power line is crossing the central portion of the east claim block, and several lakes and rivers are present, which may facilitate access for 2017 exploration work.

The Windfall West Property is an additional block of approximately 675 hectares and is located to the west of Durango's Trove property and adjoins [Beaufield Resources Inc.](#)'s (TSX.V-BFD) western perimeter and is accessible for exploration work via a main logging road from the town of Lebel-sur-Quevillon.

Marcy Kiesman CEO of Durango stated, "Durango is in discussions with consultants and geologists and is reviewing several exploration program options which may be initiated to advance the Windfall Properties. Durango is confident in the prospective gold acquisitions in the Windfall area which are positioned for discovery and looks forward to the exploration year ahead on the Trove and the New Windfall Properties."
