

KELOWNA, BC, June 8, 2017 /CNW/ - [Georox Resources Inc.](#) ("Georox" or the "Corporation") (GXR: TSX-V; OF6A:FRA) announces it has signed an agreement with [Zimtu Capital Corp.](#) for its ZimtuADVANTAGE program.

ZimtuADVANTAGE is a program designed to provide opportunities, guidance, cost savings and assistance to companies covering multiple aspects of being a public company. The services may include building financial networks, building business networks, shared costs with other public companies, building a social media presence, conference opportunities, media outlets and guidance and special group pricing provided by Zimtu's network of public company professionals. The program provides the flexibility to allow companies to customize the products and services to best support their needs. The program also provides participating companies access to and meetings with Zimtu's market participants in Europe and North America.

#### About Zimtu Capital Corp.

[Zimtu Capital Corp.](#) is a public investment issuer that invests in, creates and grows natural resources companies. The Company also provides mineral property project generation and advisory services helping to connect companies to properties of interest. For more information on Zimtu Capital and its equity holdings, visit the corporate website at <http://www.zimtu.com>.

#### About Georox:

Georox is a public oil and gas exploration, exploitation and development company focusing on conventional oil and gas reservoirs in Western Canada. Georox will use its experience to develop, acquire and drill assets with potential for primary and secondary recovery.

Production volumes are commonly expressed on a barrel of oil equivalent ("boe") basis whereby natural gas volumes are converted at a ratio of six thousand cubic feet to one barrel of oil. The intention is to convert oil and natural gas measurement units into one basis for improved analysis of results and comparisons with other industry participants. The term BOE may be misleading, particularly if used in isolation. The conversion ratio is based on an energy equivalent method and does not represent an economic value equivalency at the wellhead.

#### FORWARD-LOOKING STATEMENTS

This news release contains forward-looking statements relating to the future operations of the Corporation and other statements that are not historical facts. Forward-looking statements are often identified by terms such as "will", "may", "should", "anticipate", "expects" and similar expressions. All statements other than statements of historical fact, included in this release, including, without limitation, statements regarding future plans and objectives of the Corporation, are forward looking statements that involve risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. More particularly, it contains forward-looking statements concerning: (i) the completion and potential benefits of the Consolidation; (ii) the timing and completion of the Offering and the use of proceeds from the Private Placement; and (iii) the potential appointment of a new director to Georox's board of directors.

This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the Units in the United States. The Units (or constituent securities) have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

Neither the TSXV nor its Regulation Services Provider (as that term is defined in the policies of the TSXV) accepts responsibility for the adequacy or accuracy of this release.
