## About Lydian International Limited

Lydian is a gold developer, focusing on construction at its 100%-owned Amulsar Gold Project, located in south-central Armenia. Amulsar presents an opportunity for a large-scale, low-cost operation with production expected to begin in 2018. Open pit mining and conventional heap leach processing contribute to excellent scale and economic potential. Amulsar will be Armenia's largest gold mine, with estimated mineral resources containing 3.5 million measured and indicated gold ounces and 1.3 million inferred gold ounces. Gold production is targeted to average approximately 225,000 ounces annually over an initial 10-year mine life. Existing mineral resources and open extensions provide opportunities to improve average annual production and extend the life of mine. The Company is committed to good international industry practices in all aspects of its operations including production, sustainability, and corporate social responsibility. For more information
