Vancouver, June 20, 2017 - [Bearing Lithium Corp.](#) (TSXV: BRZ) ("Bearing" or the "Company") is pleased to announce that, on June 15th, 2017, it filed a response to the United Securities and Exchange Commission (the "SEC") in regards to their comments on the original draft of the Form F-4 Registration Statement. This filing of responses to the SEC's comments on the F-4 registration statement is an iterative process, with the first responses filed on May 24th to the original submission on April 10th. The Registration Statement has been filed with the SEC for the purpose of registering the 16 million common shares of Bearing issuable to the [Li3 Energy Inc.](#) ("Li3") shareholders on closing of the merger Agreement, and is a critical stage in the steps towards closing.

Jeremy Poirier, President and CEO, commented "having filed the second round of responses to the SEC's comments, we believe we have addressed any outstanding concerns and look forward to working constructively with them as we finalize the F-4 registration statement. Barring any subsequent comments from the SEC, which are anticipated within ten business days from June 15th, we look to announce a shareholder vote and finalize the merger as expediently as possible."

Bearing's Agreement with [Li3 Energy Inc.](#) will enable it to acquire an interest in the advanced-stage Maricunga project located in Chile (the "Maricunga Project"), which represents one of the highest-grade development opportunities in the Americas. Assuming completion of the transaction, Bearing will have an undivided 17.7% interest in the project with all expenditures through to the delivery of a Definitive Feasibility Study (DFS) fully-funded by its joint-venture partners. In excess of US\$30 million has been invested in the Maricunga Project to date.

The transaction is subject to customary closing conditions, including the approval of the TSX Venture Exchange and of the shareholders of Li3 and, if required, of Bearing, and the SEC declaring the Registration Statement effective.
