About BHK Mining Corp.

BHK is a TSXV-listed junior exploration company with operations primarily in Gabon at the Ndjole Licence, where a new discovery of high-grade, near-surface manganese mineralization has recently been made. In addition to the manganese mineralization, BHK has been following up high-grade gold zones previously discovered at the Ndjole License by the former owner of the property. BHK's operations at the Ndjole Licence open the door to further opportunities in this Central African country, which is among the top four manganese producers in the world.
