

Nexus Gold Is Unaware of any Material Changes

29.06.2017 | [The Newswire](#)

Vancouver, June 29, 2017 - [Nexus Gold Corp.](#) ("Nexus" or the "Company") (TSX-V: NXS, OTC: NXXGF, FSE: N6E) wishes to confirm that the Company's management is unaware of any material change in the Company's operations which would account for the recent increase in market activity.

As noted in the Company's news release of June 13th, the first phase of a diamond drilling program has commenced on the Bouboulou gold concession, and the Company will provide further information on this program as drilling progresses. In addition, assays are pending from the last round of diamond drilling completed in May at the Niangouela concession, as announced in the Company's news release of May 11. Results from this drill program will be released once received, reviewed and verified.

The Company will continue to provide updates of any material changes if, and when they occur.

About Burkina Faso

Burkina Faso is a landlocked nation, located in West Africa. It covers an area of roughly 274,000 square kilometres and has an estimated population of more than 16 million people. The country has a stable political setting with a pro-mining and foreign investment stance. Burkina Faso is the fastest growing gold producer in Africa, and was the 4th largest gold producer in Africa in 2012. Eight new mines have been commissioned there over the past six years. The country has excellent geological potential. The Greenstone Belts that host all the major deposits in Ghana and Cote d'Ivoire continue northward into Burkina Faso. Burkina Faso has undergone less than 15 years of modern mineral exploration, remaining under-explored in comparison to neighbouring Ghana and Mali; both of which host world-class gold mines in the same belts of Birimian rocks.

About the Company

[Nexus Gold Corp.](#) is a Vancouver-based gold exploration and development company operating in some of the world's premier mining districts. The Company is currently concentrating its efforts on two gold projects located in Burkina Faso, West Africa. The Bouboulou gold concession is a 38-sq km advanced exploration target where previous drilling has confirmed multiple zones of gold mineralization. The Niangouela gold concession is a 178-sq km project featuring high grade gold occurring in and around a primary quartz vein 1km in length and associated shear zone. For more information on these projects, please visit the Company website at www.nexusgoldcorp.com.
