03.08.2017 | [GlobeNewswire](#)

VANCOUVER, Aug. 03, 2017- [Teuton Resources Corp.](#) (“Teuton”) (TSX-V:TUO) (Frankfurt:TFE) (OTCBB:TEUTF) is pleased to announce that a reconnaissance program consisting of prospecting and sampling began in mid-July, 2017 over many of the Company’s properties in the Golden Triangle region of northwestern British Columbia.

The initial focus of the program was on the Del Norte property where previous work has established a number of gold-silver structures (LG vein, NMG vein, K zone, etc.) as well as a porphyry copper-gold occurrence. After this, work concentrated on the Konkin Silver, Prosperity South, Bay Silver and the Silver Crown properties. The crew is currently prospecting the Pearson property in and around the area of a large geophysical anomaly. Particular attention is being paid to areas recently exposed by glacial meltback.

Further work is planned on the Big Gold West, Leduc Silver, Eskay Rift, Tennyson, Catspaw, Harry, Gold Mountain and Silver Baron properties.

Contingent upon the success of the regional reconnaissance program, a drill program may be implemented later in the year.
