About the Baker Hughes Rig Counts

The Baker Hughes rig counts are counts of the number of drilling rigs actively exploring for or developing oil or natural gas in the U.S., Canada and international markets. The company has issued the rig counts as a service to the petroleum industry since 1944, when Hughes Tool Company began weekly counts of the U.S. and Canadian drilling activity. The monthly international rig count was initiated in 1975.

The North American rig count is scheduled to be released at noon Central time on the last working day of each week. The international rig count is scheduled to be released on the fifth working day of the month at 5:00 a.m. Central time. Additional detailed information on the Baker Hughes rig counts is available from our website.

About Baker Hughes, a GE company

Baker Hughes, a GE company (NYSE: BHGE) is the world's first and only fullstream provider of integrated oilfield products, services and digital solutions. We deploy minds and machines to enhance customer productivity, safety and environmental stewardship, while minimizing costs and risks at every step of the energy value chain. With operations in over 120 countries, we infuse over a century of experience with the spirit of a startup – inventing smarter ways to bring energy to the world.
