

Clean Commodities Corp. Completes Exploration Program at the Manitou Cobalt Project

14.08.2017 | [GlobeNewswire](#)

VANCOUVER, Aug. 14, 2017 - [Clean Commodities Corp.](#) (TSX-V:CLE) (“Clean Commodities” or the “Corporation”) is pleased to announce that the Corporation has completed its inaugural exploration program at the Manitou Cobalt Project, located approximately 100km north-east of Sept-Îles, Quebec.

“We are pleased to announce that crews have safely completed our first exploration program at the Manitou Cobalt project. As disclosed in this news release, Clean Commodities is pursuing expedited assay work on collected samples and we look forward to updating the market on the results once we receive and compile the laboratory data,” stated Ryan Kalt, Chief Executive Officer of Clean Commodities.

The helicopter-supported, multi-crew exploration program focused on field sampling and prospecting targets identified within the project area (see news release dated July 24, 2017, “Clean Commodities Corp. Announces Expanded Exploration Program at the Manitou Cobalt Project; Field Work Commences”).

The Corporation would like to advise that a significant number of rock samples were collected during the course of the exploration program and that it has elected to pursue expedited lab analysis of the aforementioned samples.

Clean Commodities serves as Operator of the Manitou Cobalt Project, which is under option from Canadian International Minerals Inc.

About the Manitou Cobalt-Nickel-PGE Project

For detailed information on the Manitou Cobalt Project please consult the news release, “Clean Commodities Corp. Announces Manitou Cobalt Project Transaction with Canadian International Minerals Inc.” dated February 22, 2017 and available at: <http://ow.ly/39Pe30dRLQF>
