#### About Potash Ridge

Potash Ridge's strategy is to become a premier producer of sulphate of potash or SOP in North America. The Corporation owns two SOP projects: the Valleyfield project that plans to produce SOP through the Mannheim Process; and the Blawn Mountain project in Utah that plans to produce SOP by processing an alunite material. Potash Ridge has a highly qualified and proven management team in place with significant financial, project management and operational experience and the ability to take projects into production.
