

Trading Symbol: "EGD: TSX.V"

VANCOUVER, Sept. 8, 2017 /CNW/ - Late in the night on Thursday, September 7, 2017, an earthquake with a magnitude 8.1, according to the U.S. Geological Survey, struck off the southern coast of Mexico. The earthquake had no effect on operations and post-earthquake inspections reported no damage. In the Dominican Republic, Hurricane Irma caused only a minor disruption in activities and no damage was reported. All employees and consultants of the Company in both Mexico and the Dominican Republic were reported to be safe.

Forward-Looking and Cautionary Statements

Some statements in this news release contain forward-looking information. These statements include, but are not limited to, statements with respect to proposed activities, work programs and future expenditures. These statements address future events and conditions and, as such, involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the statements. Such factors include, among others, the effects of general economic conditions, a reduction in the demand for the Company's drilling services, the price of commodities, changing foreign exchange rates, actions by government authorities, the failure to find economically viable acquisition targets, title matters, environmental matters, reliance on key personnel, the ability for operational and other reasons to complete proposed activities and work programs, the need for additional financing and the timing and amount of expenditures. [Energold Drilling Corp.](#) does not assume the obligation to update any forward-looking statement.
