

ConocoPhillips (NYSE: COP) today announced that production from its Eagle Ford (Texas) field has returned to pre-Hurricane Harvey rates of around 130 thousand barrels of oil equivalent per day (MBOED).

The company's previously communicated production guidance for the third quarter and the full year is unchanged. Third-quarter 2017 production is expected to be 1,170 to 1,210 MBOED, which excludes Libya and reflects expected impacts from the San Juan, Barnett and Panhandle dispositions. The company's full-year production on the same basis is expected to be 1,340 to 1,370 MBOED.
