

NuLegacy Gold Corporation: Grants Stock Options

13.09.2017 | [GlobeNewswire](#)

RENO, Sept. 13, 2017 - The Company announces that it has granted incentive stock options to certain directors, officers, employees and consultants to purchase up to an aggregate of 7,455,000 common shares at a price of \$0.235, being the closing price per share before the grant, and exercisable for a period of five years. The options are subject to vesting in 6 equal semi-annual installments over a period of 36 months commencing with the initial installment vesting immediately; this brings the total options established to 9.9% of the post exercise shares outstanding.

About NuLegacy Gold Corporation:

[NuLegacy](#) is a Nevada exploration company focused on discovering additional Carlin-style gold deposits on its premier district scale 98-sq. km (38 sq. mile) Red Hill Project in the prolific Cortez gold trend of Nevada. To date NuLegacy has discovered the Icebergi and the Avocado Carlin-style gold deposits and has identified four more highly prospective exploration targets that are being drilled this year. NuLegacy's Red Hill Project is located on trend and adjacent to three multi-million ounce Carlin-type gold deposits (the Pipeline, Cortez Hills and Goldrush deposits) that are amongst Barrick Gold's largest, lowest cost and politically safest gold mines.

i An established exploration target of 90-110 million tonnes of 0.9 to 1.1 grams of gold per tonne. These figures are conceptual in nature and derived from a compilation of 149 historic and 111 NuLegacy drill holes. To date, there has been insufficient exploration to define a mineral resource and it is uncertain if further exploration will result in the target being delineated as a mineral resource.

ii The similarity and proximity of these deposits in the Cortez Trend is not necessarily indicative of the gold mineralization in NuLegacy's Red Hill Project.

iii As extracted from Barrick's Q4-2013 and Q1-2014 reports.

This news release contains forward-looking statements, which relate to future events or future performance and reflect management's current expectations and assumptions. Such forward-looking statements reflect management's current beliefs and are based on assumptions made by and information currently available to the Company. Readers are cautioned that these forward-looking statements are neither promises nor guarantees, and are subject to risks and uncertainties that may cause future results to differ materially from those expected including, but not limited to, actual results of exploration activities, environmental risks, future

prices of gold, operating risks, accidents, labor issues, delays in obtaining governmental approvals and permits, availability of financing and other risks in the mining industry. There are no known resources or reserves in the Red Hill Project and the proposed exploration programs are exploratory searches for commercial bodies of ore. In addition, the presence of gold deposits on properties adjacent or near the Red Hill Project is not necessarily indicative of the gold mineralization on the Red Hill Project. All the forward-looking statements made in this news release are qualified by these cautionary statements and those in our continuous disclosure filings available on SEDAR at www.sedar.com including our annual management's discussion and analysis dated July 25, 2017 for the year ended March 31, 2017. These forward-looking statements are made as of the date hereof and the Company does not assume any obligation to update or revise them to reflect new events or circumstances save as required under applicable securities legislation.
