

# Manganese X Energy Enters Into Confidentiality Agreement with the University of Minnesota to Develop Value Added Products

14.09.2017 | [Newsfile](#)

Montreal, September 14, 2017 - [Manganese X Energy Corp.](#) (TSXV: MN) (FSE: 9SC2) (OTC Pink: SNCGF) (the "Company") was recently approached by the University of Minnesota more specifically the Natural Resources Research Institute Coleraine Laboratories, division to assist and help develop value added manganese products. [Manganese X Energy Corp.](#) has entered into a confidentiality agreement ESAF 920 contract #12655 C signed and in effect August 21<sup>st</sup> 2017, with the intent to further develop new technological methodologies and efficient cost effective innovations. In addition [Manganese X Energy Corp.](#) will also continue to work with the additional prominent manganese engineering companies already engaged in our various metallurgical projects. "We believe that having the University of Minnesota on board along with our team of experts will enhance tremendously and expedite our development of our Battery Hill Woodstock New Brunswick manganese property, with the intent of being the first North American supplier of value added materials to the lithium ion battery and other alternative energy industries, as well as the steel industry" stated CEO Martin Kepman.

In addition, [Manganese X Energy Corp.](#) continues to pursue additional manganese and other potential acquisitions and opportunities

## About Manganese X Energy

Manganese X Energy's mission is to acquire and advance high potential manganese prospects located in North America with the intent of supplying value added materials to the lithium ion battery and other alternative energy industries as well as the steel industry. In addition our company is striving to achieve new methodologies emanating from environmentally friendly green/zero emissions, while processing manganese at a lower competitive cost.
