

TSX: ELD NYSE: EGO

VANCOUVER, Sept. 15, 2017 /CNW/ - [Eldorado Gold Corp.](#) ("Eldorado" or the "Company") confirms that it has today received the approval of the Technical Study for the Old Olympias Mine Closure and the Installation Permit for the paste plant at Olympias.

At this time, remaining outstanding is the issuance of the amended Electromechanical Installation permit for the Skouries flotation plant as well as other matters including, but not limited to, the relocation of antiquities at the Skouries site.

Upon receipt of the required Skouries permit and the Greek government being willing to engage with us in constructive discussions, the Company will then be in a position to re-assess its investment options in Greece.

George Burns, President and CEO for Eldorado Gold said: "This is another positive step forward; however, we are still waiting on the other matters, which we continue to believe can be resolved through good faith negotiations. We again invite the Ministry to engage with us to resolve these matters."

About Eldorado Gold

Eldorado is a leading mid-tier gold producer with mining, development and exploration operations in Turkey, Greece, Romania, Serbia, Canada and Brazil. The Company's success to date is based on a highly skilled and dedicated workforce, safe and responsible operations, a portfolio of high-quality assets, and long-term partnerships with the communities where it operates. Eldorado's common shares trade on the Toronto Stock Exchange (TSX: ELD) and the New York Stock Exchange (NYSE: EGO).

Certain of the statements made and information provided in this press release are forward-looking statements or information within the meaning of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities laws. Often, but not always, forward-looking statements and forward-looking information can be identified by the use of words such as "plans", "expects", "is expected", "budget", "continue", "projected", "scheduled", "estimates", "forecasts", "projected", "intends", "anticipates", or "believes" or the negatives thereof or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Such forward-looking statements or information include, but are not limited to, statements or information with respect to this news release.

Forward-looking statements and forward-looking information by their nature are based on assumptions and involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or information.

We have made certain assumptions about the forward-looking statements and information, including assumptions about the geopolitical, economic, permitting and legal climate that we operate in; the future price of gold and other commodities; exchange rates; anticipated costs and expenses; production, mineral reserves and resources and metallurgical recoveries, the impact of acquisitions, dispositions, suspensions or delays on our business and the ability to achieve our goals.

Even though our management believes that the assumptions made and the expectations represented by such statements or information are reasonable, there can be no assurance that the forward-looking statement or information will prove to be accurate. Many assumptions may be difficult to predict and are beyond our control.

Furthermore, should one or more of the risks, uncertainties or other factors materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements or information. These risks, uncertainties and other factors include, among others, the following: geopolitical and economic climate (global and local), risks related to mineral tenure and permits; gold and other metal price volatility; mining operational and development risk; foreign country operational risks; risks of sovereign investment; regulatory environment and restrictions, including environmental regulatory restrictions and liability; discrepancies between actual and estimated production, mineral reserves and resources and metallurgical recoveries; risks related to impact of the sale of our Chinese assets on the Company's operations; risks related to the acquisition of [Integra Gold Corp.](#); additional funding requirements; currency fluctuations; litigation risks; community and non-governmental organization actions; speculative nature of gold exploration; dilution; share price volatility; competition; loss of key employees; and defective title to mineral claims or property, as well as those factors discussed in the sections entitled "Forward-Looking Statements" and "Risk factors in our business" in the Company's most recent Annual Information Form & Form 40-F. The reader is directed to carefully review the detailed risk discussion in our most recent Annual Information Form filed on SEDAR under our Company name, for a fuller understanding of the risks and uncertainties that affect the Company's business and operations.

There can be no assurance that forward-looking statements or information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, you should not place undue reliance on

the forward-looking statements or information contained herein. Except as required by law, we do not expect to update forward-looking statements and information continually as conditions change and you are referred to the full discussion of the Company's business contained in the Company's reports filed with the securities regulatory authorities in Canada and the U.S.
