

Bearing Lithium Announces Closing of Li3 Energy Acquisition

02.10.2017 | [Newsfile](#)

Vancouver, October 2, 2017 - [Bearing Lithium Corp.](#) (TSXV: BRZ) (OTCQB: BRGRF) (FSE: B6K1) ("Bearing" or the "Company") is pleased to announce the closing of its previously announced acquisition of [Li3 Energy Inc.](#) ("Li3 Energy") (the "Acquisition"). As a result of the Acquisition, Li3 Energy and its subsidiaries are now wholly-owned subsidiaries of Bearing. In exchange for all of the outstanding common stock of Li3 Energy, Bearing issued 16 million common shares of Bearing to the former shareholders of Li3 Energy. Former Li3 shareholders can expect to receive a Letter of Transmittal with instructions on how to exchange their certificates representing Li3 Energy common stock for Bearing common shares.

"This Acquisition was a key transformative event for Bearing in securing a free-carried interest in a world class lithium brine project. The acquisition of a US listed company has been a significant undertaking, as this is something rarely accomplished by a Canadian-listed company, and I would like to thank everyone involved for their time, persistence and dedication. Having the Acquisition now behind us, and the balance sheet to satisfy our financial obligations through to the end of 2018, we look forward to continuing to building shareholder value going forward," commented Jeremy Poirier, CEO of Bearing.

About Bearing Lithium Corp.

[Bearing Lithium Corp.](#) is a mineral exploration and development company, primarily focused on lithium. Its primary asset is a free-carried 17.7% interest in the Maricunga lithium brine project in Chile. The Maricunga project represents one of the highest-grade lithium brine salars globally and the only pre-production project in Chile. Over US\$30 million has been invested in the project to date and all expenditures through 2018, including the delivery of a Definitive Feasibility Study in H1/18, are fully-funded by their earn-in joint-venture partner. Bearing also holds a portfolio of grass-roots exploration projects in the gold district of the Yukon, which are currently optioned to Golden Predator, and a lithium project in Nevada, which is currently optioned to First Division Ventures Inc.

Cautionary Statements Regarding Forward Looking Information

This press release includes certain "forward-looking information" and "forward-looking statements" (collectively "forward-looking statements") within the meaning of applicable Canadian and United States securities legislation including the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, included herein, without limitation, statements relating the future operating or financial performance of the Company, are forward-looking statements.

Forward-looking statements are frequently, but not always, identified by words such as "expects",

"anticipates", "believes", "intends", "estimates", "potential", "possible", and similar expressions, or statements that events, conditions, or results "will", "may", "could", or "should" occur or be achieved. Forward-looking statements in this press release relate to, among other things: potential benefits of the Acquisition for Bearing shareholders, completion of a Prefeasibility Study, completion of a Definitive Feasibility Study and the Company's ability to satisfy all of its financial obligations through to the end of 2018. Statements concerning mineral resource estimates may also be deemed to constitute forward-looking information to the extent that they involve estimates of the mineralization that will be encountered if the Maricunga Project is developed. Actual future results may differ materially. There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements reflect the beliefs, opinions and projections on the date the statements are made and are based upon a number of assumptions and estimates that, while considered reasonable by Bearing, are inherently subject to significant business, economic, competitive, political and social uncertainties and contingencies. Many factors, both known and unknown, could cause actual results, performance or achievements to be materially different from the results, performance or achievements that are or may be expressed or implied by such forward-looking statements and the parties have made assumptions and estimates based on or related to many of these factors. Such factors include, without limitation: the occurrence of unexpected financial obligations, fluctuations in the price of lithium or certain other commodities; fluctuations in the currency markets; changes in national and local government, legislation, taxation, controls, regulations and political or economic developments; risks and hazards associated with the business of mineral exploration, development and mining (including environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins and flooding); the presence of laws and regulations that may impose restrictions on mining and employee relations. Readers should not place undue reliance on the forward-looking statements and information contained in this news release concerning these times. Except as required by law, Bearing does not assume any obligation to update the forward-looking statements of beliefs, opinions, projections, or other factors, should they change, except as required by law.
