About Potash Ridge

Potash Ridge's strategy is to become a premier producer of sulphate of potash ("SOP") in North America. The Corporation owns two SOP projects: the Blawn Mountain project in Utah that plans to produce SOP by processing an alunite material and the Valleyfield project plans to produce SOP through the Mannheim Process. Potash Ridge has a highly qualified and proven management team in place with significant financial, project management and operational experience and the ability to take projects into production.
