

Northern Empire Expands Sterling Property to 116 Square Kilometers

23.10.2017 | [Newsfile](#)

Vancouver, British Columbia--(Newsfile Corp. - October 23, 2017) - [Northern Empire Resources Corp.](#) (TSXV: NM) (the "Company" or "Northern Empire") today announced that it has staked an additional 261 claims as part of the Sterling Property located in Nye County, Nevada.

This staking further solidifies the Company's position as the dominant landholder in the Bare Mountains, a district which includes the past producing Sterling, 144, Daisy, Secret Pass and Mother Lode Deposits. The Sterling Mine, owned by Northern Empire, is permitted to restart open pit operations.

Michael G. Allen, President, CEO and Director stated: "Our recently complied geophysical survey identified a range front structure that extends for several kilometers on the eastern flank of the Bare Mountains. Hyperspectral data identified areas of alteration at key geological contacts that have been proven to host deposits on our property. Our geological team will be assessing these targets in the coming weeks."

Sterling Property Highlights

- High Grade Gold in Nevada. Total inferred resources on the Sterling Property were estimated at 709,000 oz Au with an average grade of 2.23 g/t Au.

Sterling Project Inferred Resource Summary Effective March 29, 2017

Deposit	Cutoff (g/t Au)	Tonnes	g/t Au	In Place Au Oz
Sterling Pit Constrained*	1.0	1,958,000	3.67	231,000
Sterling Non-Pit Constrained*	1.7	350,000	3.38	38,000
Daisy Pit Constrained	1.0	2,556,000	2.12	174,000
Secret Pass Pit Constrained	1.0	3,534,000	1.65	188,000
SNA Pit Constrained	1.0	1,510,000	1.61	78,000
Total		9,908,000	2.23	709,000

* Resource calculated based on CN soluble assays.

1. CIM definitions are followed for classification of Mineral Resource.
2. Mineral Resource surface pit extent has been estimated using a gold price of US\$1,200 per ounce and a US\$2.10 per ton mining cost with gold recovery ranging from 80 — 88% depending upon rock type.
3. Sterling non-pit constrained resources below the surface pit and targeted for underground mining are based on a gold price of US\$1,200 per ounce and mining costs of \$US45 per ton. Other modifying factors remain unchanged.
4. Gold recovery estimated to range from 80 — 88% depending upon rock type.
5. The Mineral Resource estimate has been prepared by Derek Loveday, P. Geo. of Norwest Corporation in conformity with CIM "Estimation of Mineral Resource and Mineral Reserves Best Practices" guidelines and are reported in accordance with the Canadian Securities Administrators NI43-101. Mineral resources are not mineral reserves and do not have demonstrated economic viability.

- District Scale Exploration in the Walker Lane. 116 square kilometer land package features five past producing open pit and two underground gold mines with resources open for expansion.
- Permitted to begin operations. The Bureau of Land Management has issued a Finding of No Significant Impact ("FONSI") and approved the next phase of mining at the Sterling Mine. This permit was issued on May 12, 2016, is transferable, and has an indefinite term.
- Location. The Sterling Property is located approximately 185 kilometers NW of Las Vegas on the eastern flank of the Bare Mountains, in the Walker Lane Trend.

For further information on the Sterling Property please visit the Company's website, or refer to the technical report on the Sterling Property filed on June 18, 2017.

About Northern Empire

Northern Empire is an aggressive, Vancouver based, gold explorer working to take advantage of the current improving market conditions by assembling a value driven portfolio of properties.
