About Pieridae

Pieridae is a Canadian corporation based in Calgary, Alberta focused on the development of fully integrated energy activities, from upstream production to the sale of LNG. Pieridae's main project is the Goldboro LNG Project and, following Former Pieridae's first acquisition of resources in New Brunswick and the completion of the Arrangement, Pieridae has embarked on a strategy to consolidate natural gas reserves in key natural gas basins to develop new international markets for Canadian and US natural gas. Pieridae will continue to seek to build a long term portfolio of natural gas to supply the Goldboro LNG Project. Pieridae is on the leading edge of the re-integration of the LNG value chain in North America.

This press release contains forward-looking statements that involve risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors and risks. The forward-looking statements contained in this press release are made as of the date hereof and Pieridae undertakes no obligation to update publicly or revise any forward-looking statements or information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws.
