

Eskay Launches New Website and Reviews Data on Red Lightning Nickel Prospect

03.11.2017 | [FSCwire](#)

Toronto, Ontario (FSCwire) - [Eskay Mining Corp.](#) ("Eskay" or the "Company") (TSX-V:ESK) is pleased to announce that the Company's new website, found at www.eskaymining.com, has been launched.

As a result of recent activity in the Golden Triangle area of British Columbia, the Company is reviewing some historical results from diamond drilling of the Red Lightning prospect, where a Copper-Nickel-Cobalt discovery was made in 2008. Results from drill hole CR08-86, reported in a press release dated August 12, 2008 included an intercept of 20.4m grading 0.79% Cu, 0.42% Ni and 0.08% Co from 222.8 m to 243.2 m (estimated true thickness 10.8m). The intersection included a 10m intercept grading 1.03% Cu, 0.55% Ni and 0.10% Co (estimated true thickness 5.3m). The Company will be reviewing drill data, as well as the results of previous geophysical and geochemical surveys in order to re-evaluate the potential of the Red Lightning prospect and to formulate an appropriate follow-up exploration program, including possible diamond drilling. A report on the 2008 exploration program can be found on the company website, under the tab Projects - Geological Reports - 2008 Exploration on the Corey Property.

Charles J. Greig, P. Geo., a member of the Company's Advisory Team, is a Qualified Person under the definition of National Instrument 43-101. Mr. Greig has reviewed and approved the technical information in this press release.

[Eskay Mining Corp.](#) (TSX-V:ESK) is a TSX Venture Exchange listed company, headquartered in Toronto, Ontario. Eskay is an exploration company focused on the exploration and development of precious and base metals in British Columbia in a highly prolific, poly metallic area known as the Eskay Rift Belt located in the "Golden Triangle", 70km northwest of Stewart, BC. The Company currently holds mineral tenures in this area comprised of 177 claims (130,000 acres).

All material information on the Company may be found on its website at www.eskaymining.com and on SEDAR at www.sedar.com.

Forward-Looking Statements: This Press Release contains forward-looking statements that involve risks and uncertainties, which may cause actual results to differ materially from the statements made. When used in this document, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "estimate", "expect" and similar expressions are intended to identify forward-looking statements. Such statements reflect our current views with respect to future events and are subject to risks and uncertainties. Many factors could cause our actual results to differ materially from the statements made, including those factors discussed in filings made by us with the Canadian securities regulatory authorities. Should one or more of these risks and uncertainties, such as actual results of current exploration programs, the general risks associated with the mining industry, the price of gold and other metals, currency and interest rate fluctuations, increased competition and general economic and market factors, occur or should assumptions underlying the forward looking statements prove

incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, or expected. We do not intend and do not assume any obligation to update these forward-looking statements, except as required by law. Shareholders are cautioned not to put undue reliance on such forward-looking statements.
