

Bayhorse Silver Commences Assembly of Ore-Sorter at the Bayhorse Mine, Oregon, USA

03.11.2017 | [Newsfile](#)

Vancouver, November 3, 2017 - [Bayhorse Silver Inc.](#) (TSXV: BHS) ("Bayhorse" or the "Company") has received its Steinert KSS100 X-Ray Transmissive "Ore-Sorter" at the Bayhorse Silver Mine and assembly has commenced.

Commissioning of the Ore-Sorter, and training of operating personnel will commence on completion of assembly.

Development of the Legend Zone, that is directly beneath the Sunshine Zone, 50 feet above, continues, and mineralized material is being extracted from the zone to add to that material already stockpiled.

The Company is winterizing the Mine so that seven (7) day a week operations, both mining and processing, can continue through the winter.

Bayhorse CEO Graeme O'Neill comments, "Now the Ore-Sorter is being assembled for use, upon becoming operational we anticipate being able to increase the amount of direct-shipping material for processing to Mineral Solutions of Coeur D'Alene, Idaho."

The Company advises it is not basing any decision to produce on a feasibility study of mineral reserves demonstrating economic and technical viability and also advises there is increased uncertainty and specific economic and technical risks of failure associated with any production decision.

This News Release has been prepared on behalf of the [Bayhorse Silver Inc.](#) Board of Directors, which accepts full responsibility for its contents. Dr. Clay Conway, P.Geol., a Qualified Person and Director of Bayhorse has prepared, supervised the preparation of, or approved the technical content of this press release.

On Behalf of the Board,

Graeme O'Neill, President
604-684-3394

[Bayhorse Silver Inc.](#) has earned an 80% interest in the historic Bayhorse Silver Mine, Oregon, USA, through current underground development, and construction of concentrating facilities.

Bayhorse is also earning a 75% interest in the Bridging the Gap Project, consisting of past producing historic Crown Point, Silver King, Ranger, Wyoming, Curlew, and Blackhawk silver/lead/zinc mines of ASARCO in Idaho's Silver Valley.

The Company has an experienced management and technical team with extensive exploration and mining expertise.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
