

Stamper Oil and Gas Provides Africa Project Update

20.11.2017 | [GlobeNewswire](#)

VANCOUVER, British Columbia, Nov. 20, 2017 (GLOBE NEWSWIRE) -- Stamper Oil and Gas Corp. (TSX-V:STMP) (FSE:TMP2) (OTCQB:STMGF) ("Stamper" or "the Company"), is pleased to announce that Stamper is positioning itself to be a successful international oil and gas company. It has recently added Mr. Alexander Polevoy as a new director, with extensive experience in project financing and management. The Company intends to further strengthen the Board of Directors, in due course. As previously announced in October 10, 2017 news release, the Company is pursuing late exploration stage/early development stage oil project in Sudan.

The oil project has had previous work done as follows, including completion of 6,700 km of 2D seismic and 432 sq. km of 3D seismic and subsequently have also indicated a number of new potential locations for drilling. The project area for exploration and production comprises of 26,000 sq. km where the previous operator successfully drilled 3 discovery wells and 7 development wells.

A third party analysis report indicates "based on the TOC/ Rock Eval data at disposal, excellent oil prone lacustrine source rocks (Type I) were penetrated in the two discovery wells located in the Central Sub-basin. In the Eastern Sub-basin, a source rock was encountered near TD in the lower oil prone formation, Campanian in age."

Stamper Oil and Gas Chairman Lutfur Khan commented, "I am very pleased to be back in Africa evaluating oil exploration and development projects. My last foray into Africa was very effective where we advanced oil exploration projects and carried them into production, while we designed and built a successful 1,500 km export pipeline."

The Company believes that this basin is going to be a prolific oil producer in the near term. The Company will continue to pursue additional projects with similar potential.

About Stamper Oil and Gas

Stamper Oil and Gas Corp. (TSX.V:STMP) is an independent international oil and gas company, engaged in the acquisition, exploration and development of conventional oil and natural gas properties. The Company plans to identify and build out a portfolio of high-impact oil and gas prospects, with a focus on Latin America. Stamper is committed to creating sustainable shareholder value by evaluating and developing future prospects into commercially viable assets.
