

Far Resources enters into MOU on Thompson Brothers Lithium Project

27.11.2017 | [FSCwire](#)

Vancouver, BC (FSCwire) - [Far Resources Ltd.](#) (CSE:FAT) (FSE:F0R) (OTCPK:FRRSF) (www.farresources.com) (“Far Resources” or the “Company”) is pleased to announce that it has entered into a non-binding Memorandum of Understanding (the “MOU”) with Quantum Resources Limited (“Quantum”), an exploration company listed on the ASX (ASX: QUR). Quantum has the right to earn an interest in the Thompson Brothers lithium project in Manitoba. The Thompson Brothers lithium project is contiguous with Far Resource’s extensive holdings in the Snow Lake region of Manitoba.

Under the MOU, the two companies have agreed to exchange information and to work together to assess the viability and potential synergies of developing their lithium assets in Manitoba together over the course of a one-year period. The MOU may be extended or terminated by either party on written notice to the other party. During the period of the MOU, the parties will explore the most efficacious way to work together to move their projects forward through a mutually beneficial agreement to both parties.

Keith Anderson, President and CEO of Far Resources, said “I am excited about the potential that can be unlocked by working together with Quantum on our lithium projects in Manitoba. The MOU represents the possibility for operational synergies and development options that will benefit Far Resources and our shareholders. We will be actively proceeding to investigate these possibilities to the mutual benefit of all stakeholders”.

About the Company

[Far Resources Ltd.](#) is an exploration company, publicly traded on the Canadian Securities Exchange under the symbol FAT, focused on the identification and development of high potential mineral opportunities in stable jurisdictions. Far Resources may acquire or option properties of merit to meet its ongoing goal to locate, advance and unlock the potential of these mineral opportunities. Far Resources has two option agreements in place. The Zoro Lithium Property covers a number of known lithium pegmatite occurrences and is located near Snow Lake, MB. Manitoba has been ranked as the world’s second best jurisdiction for mining investment by the Fraser Institute. The second option is on the Winston Property in New Mexico, USA, another historic mining property with potential for silver and gold; New Mexico is also listed by the Fraser Institute, ranking in the top 25 mining jurisdictions in the world. Please visit our updated website at www.farresources.com for full details on our current projects. Far Resources has optioned its wholly owned Tchentlo Lake Property in British Columbia, Canada to Alchemist Mining Inc.
