

American Manganese Inc. Receives Legal Entity Identifier (LEI) for European Union Trade Assurity through German Firm WM Datenservice

01.12.2017 | [FSCwire](#)

Vancouver, British Columbia (FSCwire) - [American Manganese Inc.](#) Receives Legal Entity Identifier (LEI) for European Trade Assurity through German Firm WM Datenservice

December 1, 2017 - Vancouver, BC

Larry W. Reaugh, President and Chief Executive Officer of [American Manganese Inc.](#), (TSX.V: AMY; Pink Sheets: AMY; Frankfurt: 2AM) (“AMI” or the “Company”) is pleased to report the Company has been assigned a Legal Entity Identifier (“LEI”) number 5493005WVFCG4EGQEN69 through registration with WM Datenservice. The European Union has adopted regulations that require use of the LEI as a barcode equivalent aimed at reducing risks to

What is the Global Legal Entity Identifier (LEI)?

The Legal Entity Identifier (LEI) is an internationally standardized and globally valid identifier for participants in the financial markets and serves to unambiguously identify business partners (eg companies, banks or investment funds) and to fulfill certain obligations to supervisory authorities. What's new in comparison to existing systems is the global solution across all countries, markets and legal systems. The global adoption of a unified legal entity identification system is expected to reduce costs for businesses, as well as the financial market as a whole, improve risk management and promote transparency in the financial markets.

[American Manganese Inc.](#) meets the requirement for all companies listed on German Stock Exchanges (ie. Frankfurt Stock Exchange) to have an LEI number by January 3, 2018.

According to the website of the Deutsche Borse Group, the LEI number will affect most aspects of the securities market, including trading, clearing, settlement, custody, collateral and liquidity management, market data and indices.

About American Manganese Inc.

[American Manganese Inc.](#) is a diversified specialty and critical metal company focused on capitalizing on its patented technology through low cost production or recovery of electrolytic manganese products throughout the world, and recycling spent electric vehicle lithium ion rechargeable batteries.

Interest in the Company’s patented process has adjusted the focus of [American Manganese Inc.](#) toward the exploration of applying its patented technology for other purposes and materials. [American Manganese Inc.](#) aims to capitalize on its patented technology and proprietary know-how to become an industry leader in the recycling of spent electric vehicle lithium ion batteries having cathode chemistries such as: Lithium-Cobalt, Lithium-Cobalt-Nickel-Manganese, and Lithium-Manganese (Please see the Company’s July 27, 2017 press release for further details).

The company has updated their PowerPoint which can be viewed [here](#).
