

# Comstock Mining To Attend AEMA Mining Conference; Reaffirms NYSE listing

04.12.2017 | [GlobeNewswire](#)

VIRGINIA CITY, Nev., Dec. 04, 2017 (GLOBE NEWSWIRE) -- [Comstock Mining Inc.](#) (the "Company") (NYSE American:LODE), a Nevada-based, gold and silver mining company, announced today that it will be exhibiting at and attending the American Exploration & Mining Association's 123<sup>rd</sup> Annual Event at the Sparks Nugget Hotel in Sparks, Nevada, from December 6-8. This annual meeting is the second largest annual mining convention in the U.S., featuring 250 exhibitors, a core shack, several technical sessions and more than 2,000 attendees.

Corrado De Gasperis, Executive Chairman and CEO, stated, "We are looking forward to participating in an excellent AEMA conference, where most of our industry comes together and a tremendous amount of business can take place, efficiently, right in our own back yard."

Last week, the Company received a letter from the NYSE American LLC (the "Exchange"), stating that the Company was in compliance with the Exchange's continued listing standards set forth in Part 10 of the Exchange's Company Guide. The Exchange specifically noted that the Company has resolved the Company's previously announced low selling price deficiency. Effective November 28, 2017, the "bc" designation, signifying below-compliance with NYSE American listing standards was removed from the Company's trading symbol.

Mr. De Gasperis concluded, "We are pleased with our ongoing compliance with the NYSE American listing standards and we could not be prouder of our commitment to and collaboration with this world-class platform. We look forward to providing our investors with more frequent updates on our ongoing agreement for the potential joint venture with Tonogold, the monetization of our non-mining assets, and the planned development activity for the Dayton Resource Area, toward full feasibility."

The Company's goal is to deliver up to \$500 million of accretive share value by 2020, both through its existing mineral resource development targets and the ongoing development of the various partnerships, ventures and exploration and development activities that, all together, are capable of sustaining production equivalent to 100,000 gold ounces per annum."

About Comstock Mining Inc.

[Comstock Mining Inc.](#) is a Nevada-based, gold and silver mining company with extensive, contiguous property in the Comstock District and is an emerging leader in sustainable, responsible mining. The Company began acquiring properties in the Comstock District in 2003. Since then, the Company has consolidated a significant portion of the Comstock District, amassed the single largest known repository of historical and current geological data on the Comstock region, secured permits, built an infrastructure and completed its first phase of production. The Company continues evaluating and acquiring properties inside and outside the district expanding its footprint and exploring all of our existing and prospective opportunities for further exploration, development and mining. The near term goal of our business plan is to maximize intrinsic stockholder value realized, per share, by continuing to acquire mineralized and potentially mineralized properties, exploring, developing and validating qualified resources and reserves (proven and probable) that enable the commercial development of our operations through extended, long-lived mine plans that are economically feasible and socially responsible.
