

Tasca Amends Bleiberg Project Option Agreement to Acquire 100% Interest

18.12.2017 | [FSCwire](#)

Vancouver, British Columbia (FSCwire) - Tasca Resources Ltd. ("Tasca", "TAC" or the "Company") (TSX Venture: TAC) (Frankfurt: 3TA) is pleased to announce that further to its news releases on January 3, 2017 and April 20, 2017, it has entered into an Amending Agreement with the Optionor to complete its current option to purchase a 100% undivided interest in its Bleiberg zinc-lead-germanium-fluorite project, located in southern Austria, west of the city of Villach (the "Bleiberg Property"). The Bleiberg Property consists of 116 mining concessions in the land registry municipalities of Bad Bleiberg, Nötsch im Gailtal, St. Stefan im Gailtal and Paternion in southwestern Austria.

The Company has agreed to issue 300,000 common shares to the Optionor subject to TSX Venture Exchange (the "Exchange") approval for a 100% ownership interest in the Bleiberg Property. Once Exchange approval has been received, the Company will issue the shares and send them to its Austrian legal counsel in trust, for release to the Optionor once the Bleiberg Property has been formally transferred to Tasca and recorded with the applicable Austrian mining authorities.

About the Bleiberg Project

The Bleiberg lead zinc Property hosts an extensive mining infrastructure with more than 1150 kilometres of tunnels and underground workings including three mine shafts. Historic production was about 500,000 tons per year, and it was one of the 6 largest Germanium producers in the world while it was in production. Average grades were 6 percent zinc, 1 percent lead and 200 parts per million (ppm) germanium.
