

# Gabriel Resources Ltd.: Transfer of Listing

23.01.2018 | [FSCwire](#)

London, England - [Gabriel Resources Ltd.](#) ("Gabriel" or the "Company") announces that it has voluntarily applied to delist its common shares from the Toronto Stock Exchange (the "TSX") and has received conditional approval to transfer its listing to the TSX Venture Exchange ("Exchange") through the streamlined listing procedures of the Exchange.

The Company believes that the transfer of its listing to the Exchange will provide for greater operational efficiency and lower costs for the Company, while allowing shareholders to have continued trading liquidity on a recognized trading exchange, in line with its strategy to contain costs whilst focusing on the bi-lateral investment treaty claim against Romania ("ICSID Arbitration").

Gabriel's common shares are expected to commence trading on the Exchange under the existing symbol "GBU" from the opening of trading on February 1, 2018 and, pursuant to the application to voluntarily delist from the TSX, the common shares will continue to trade on the TSX until the closing of the market on January 31, 2018.

No action is required by shareholders.

## About Gabriel

Gabriel is a publicly listed Canadian resource company. The Company's principal focus has been the exploration and development of the RoÅ&Yuml;ia MontanÅ&fnof; gold and silver project in Romania. The RoÅ&Yuml;ia MontanÅ&fnof; Project, one of the largest undeveloped gold deposits in Europe, is situated in the South Apuseni Mountains of Transylvania, Romania, an historic and prolific mining district that since pre-Roman times has been mined intermittently for over 2,000 years. The exploitation license ("License") for the RoÅ&Yuml;ia MontanÅ&fnof; Project is held by RoÅ&Yuml;ia MontanÅ&fnof; Gold Corporation S.A., a Romanian company in which Gabriel owns an 80.69% equity interest, with the 19.31% balance held by Minvest RoÅ&Yuml;ia MontanÅ&fnof; S.A., a Romanian state-owned mining company. It is anticipated that the RoÅ&Yuml;ia MontanÅ&fnof; Project would bring over US\$24 billion (at US\$1,200/oz gold) to Romania as potential direct and indirect contribution to GDP and generate thousands of employment opportunities.

Since the grant of the License in June 1999, the Company has focused substantially all of its management and financial resources on the exploration, feasibility and subsequent development of the RoÅ&Yuml;ia MontanÅ&fnof; Project. Despite the Company's fulfilment of its legal obligations and its development of the RoÅ&Yuml;ia MontanÅ&fnof; Project as a high-quality, sustainable and environmentally-responsible mining project, using best available techniques, Romania has blocked and prevented implementation of the RoÅ&Yuml;ia MontanÅ&fnof; Project without due process and without compensation. Accordingly, the Company's current core focus is the ICSID Arbitration. For more information please visit the Company's website at [www.gabrielresources.com](http://www.gabrielresources.com).

Forward-looking statements involve risks, uncertainties, assumptions, and other factors including those set out below, that may never materialize, prove incorrect or materialize other than as currently contemplated which could cause the Company's results to differ materially from those expressed or implied by such forward-looking statements. Numerous factors could cause actual results to differ materially from those in the forward-looking statements, including without limitation:

- the duration, required disclosure, costs, process and outcome of the ICSID Arbitration against Romania;
- changes in the liquidity and capital resources of Gabriel, and the Group;
- access to funding to support the Group's continued ICSID Arbitration and/or operating activities in the future;
- equity dilution resulting from the conversion or exercise of existing securities in part or in whole to Common Shares;

- the impact on business strategy and its implementation in Romania of: unforeseen historic acts of corruption, uncertain fiscal investigations; uncertain legal enforcement both for and against the Group and political and social instability;

- volatility of currency exchange rates, metal prices and metal production;
- the availability and continued participation in operational or other matters pertaining to the Group of certain key employees and consultants; and
- risks normally incident to the exploration, development and operation of mining properties.

This list is not exhaustive of the factors that may affect any of the Company's forward-looking statements.

Investors are cautioned not to put undue reliance on forward-looking statements, and investors should not infer that there has been no change in the Company's affairs since the date of this press release that

would warrant any modification of any forward-looking statement made in this document, other documents periodically filed with or furnished to the relevant securities regulators or documents presented on the Company's website. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by this notice.
