29.01.2018 | [GlobeNewswire](#)

TORONTO, Jan. 29, 2018 (GLOBE NEWSWIRE) -- [Western Troy Capital Resources Inc.](#) (TSX-V:WRY) ("Western Troy" or the "Company") announces that it has received assay results from its previously announced drilling program at the Willow Creek Gold Property near Leadville, Colorado.

Twenty holes averaging approximately 50 meters in depth were drilled using a vibrasonic drill at the Willow Creek Project site in September and October. While past work on the property indicated good gold grades and tonnage, assaying of the core samples did not confirm past reports and did not expand the potential resource. Western Troy has terminated its lease agreement with Mt. Elbert Mining Company.
