

# Gungnir Resources Launches New Website

01.02.2018 | [FSCwire](#)

Vancouver, British Columbia (FSCwire) - [Gungnir Resources Inc.](#) (GUG: TSX-V, ASWRF: OTC PK) (&#8220;Gungnir&#8221; or the &#8220;Company&#8221;) is pleased to announce that it has launched a new corporate website.

&#8220;Through this freshly re-designed website we seek to keep our shareholders up-to-date and well informed on Company developments and to introduce Gungnir to new investors. We are expecting 2018 to be a busy year and plan to routinely update the site with new maps, deposit models, and photos of prospecting samples and most importantly new drill core. Our plan for 2018 is to drill-test extensions of the Knaften 300 Gold Zone, regional gold targets and brand-new nickel-copper targets at Knaften. At Lappvattnet and Rormyrberget, which in my opinion are probably the top historic nickel-copper-cobalt massive sulphide deposits in Sweden, we are evaluating new geophysical results and modelling existing data&#8221;, commented Jari Paakki, CEO of Gungnir.

Mr. Jari Paakki, M.Sc., P.Geo., is a Qualified Person as defined by National Instrument 43-101 - Standards of Disclosure for Mineral Projects. Mr. Paakki prepared the technical information contained in this news release and has approved its disclosure.

## About Gungnir Resources

[Gungnir Resources Inc.](#) is a Canadian-based TSX-V listed mineral exploration company (GUG: TSX-V) with gold and base metal permits in northern Sweden within a region hosting 12 million ounces of gold delineated in existing and mined resources plus several past-producing and producing base metal mines. The Company&#8217;s key gold project, Knaften, is situated at the southern extension of the &#8220;Gold Line&#8221; which hosts a number of gold deposits including Faboliden and Svartliden (Dragon Mining), and Barsele (Agnico Eagle and Barsele Minerals). The Company also has permits covering two nickel deposits in Sweden, Lappvattnet and Rormyrberget which collectively host 70 million pounds of nickel in historical resources (see NR dated February 24, 2015), and newly staked Norrbotten gold and base metal permits in the Norrbotten District. Gungnir additionally holds a \$5,000,000 royalty stream and received the first annual payment of \$1,000,000 on May 2, 2017. The next annual payment of \$1,000,000 is due on April 30, 2018. Further information about the Company and its properties may be found at [www.gungnirresources.com](http://www.gungnirresources.com) or at [www.sedar.com](http://www.sedar.com).

On behalf of the Board,

Jari Paakki, CEO and Director

Cautionary Note Regarding Forward-Looking Statements: Certain statements made herein may contain forward-looking statements or information within the meaning of Canadian securities laws. In certain cases, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved", or the negative of these words or comparable terminology. By their very nature forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual performance of the Company to be materially different from any anticipated performance expressed or implied by the forward-looking statements. Such forward-looking statements or information include, but are not limited to, statements or information with respect to Gungnir Resources' plan for future funding, and exploration and development of its properties. Forward-looking statements or information are based on a number of estimates and assumptions and are subject to a variety of risks and uncertainties, which could cause actual events or results to differ from those reflected in the forward-looking statements or information. Should one or more of these risks and uncertainties materialize, or should underlying estimates and assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements or information. For example, there is no certainty, that any economically viable mineral deposit will be located on the properties, or that the Company will receive or be able to raise sufficient capital to complete all of its exploration programs. Accordingly, undue reliance should not be placed on forward-looking statements or information. Gungnir does not expect to update forward-looking statements or information continually as conditions change, except as may be required by securities law.
