Renaissance Gold Project Update

13.02.2018 | FSCwire

White Rock, British Columbia (FSCwire) - Renaissance Gold Inc. TSX.V:REN ("RenGold" or the "Company") is pleased to report on the progress and status of our Nevada, USA projects and our anticipal drilling plans for 2018.

Kinross funded projects

Kinross Gold U.S.A., Inc. a subsidiary of Kinross Gold Corp. (NYSE:KGC; TSX:K) entered into earn-in agreements on Diamond Point, Buffalo Canyon and Spruce East projects in May, 2017 (See NR dated May 15, 2017), and completed programs on all three projects. (See NRs dated October 26, 2017 and December 6, 2017). We are pleased to report the Kinross has notified the Company that they will be returning for another round of drilling on the Spruce East Project which includes a 2nd year minimum expenditure of US\$200,000 to maintain the option. Drilling during 2017 at Spruce East encountered significant zones of anomalous geochemistry and meaningful gold intercepts (See NR dated October 26, 2017) further defining a Carlin-like geochemical cell which remains open to expansion.

At Buffalo Canyon, the 2017 drilling program encountered long runs of low-grade gold mineralization (See NR dated De 6, 2017), expanding the footprint of known mineralization on the project, and including the highest single assay received of 5.34 g/t Au. Despite this encouragement, Kinross has decided to not continue to earn-in on the project. The propert being actively marketed to attract a new venture partner.

At Diamond Point, all of the 2017 drill holes bottomed in Chainman Shale and did not reach the target stratigraphy of th formation. Gold values in 5 foot (1.5 m) sample intervals ranged from below detection limits to 0.29 g/t Au, establishing continuation of the surface gold showings along the West fault under shallow alluvial cover 400 meters to the north. Kill has decided to not continue to earn-in on this project. The Company is currently assessing the remaining target potent

AngloGold Ashanti, NA

AngloGold Ashanti, North America, Inc., a subsidiary of Anglo Gold Ashanti ("Anglo") (NYSE:AU; JSE:A ASX:AGG) holds an option to acquire the Silicon project from the Company for a series of payments totaling US\$3,000 over 3 years. Anglo has informed the Company that they have commenced a diamond drill program during January, 20 have plans to drill approximately 3000 meters. Silicon is located in the Bare Mountains, Nye County, Nevada and conta extensive exposures characteristic of the upper portions of a low-sulfidation, epithermal gold system. The project is nea Gold Inc.' (TSX.V:KOR) North Bullfrog and Mother Lode Projects, where they are active and reporting good dr results, and Northern Empire Resources' (TSX.V:NM) Sterling Mine.

S2 Resources

<u>S2 Resources Ltd.</u> (ASX:S2R), through their subsidiary Nevada Star Resources LLC has an option to earn a 70% interesting three of the Company’s projects, Pluto, South Roberts and Ecru (See NR dated July 31, 2017). S2 has recently completed geophysical and geochemical surveys at South Roberts and plans additional geophysical surveys at Ecru, we to drill both projects in the spring. South Roberts and Ecru are both Carlin-type targets located along the prolific Battle Mountain-Eureka (Cortez) Trend of gold deposits.

Ramelius Resources

Ramelius Resources Ltd. (ASX:RMS), our joint venture funding partner, has an option to earn a 75% interest in the Company's Jupiter project in Nye County, Nevada (see NR dated June 21, 2017). Ramelius completed a Phas program in December, 2017, as a first test of two drill targets. The results of this program were positive and encounter anomalous gold mineralization in several holes drilled in the NE Pediment target including an intercept of 30 feet (9.1 m 1.10 g/t Au (See NR dated January 29, 2018). Ramelius is evaluating the results of this program and planning follow-up the results of the results of this program and planning follow-up the results of this program and planning follow-up the results of this program and planning follow-up the results of the results of

in the summer.

Coeur Explorations

Coeur Explorations, Inc. ("Coeur"), a subsidiary of Coeur Mining Inc. (NYSE:CDE) has an option to earn 70% on the Company’s Cine Mountain Project in Nye County, Nevada (see NR dated December 4, 2017). The contains a large area of gold bearing jasperoids. Coeur has a minimum work commitment in the first agreement year of US\$250,000 and is developing drill targets to be tested this year.

Radius Gold

Radius Gold Inc. (TSX.V:RDU) has an option to acquire the Spring Peak Project, Mineral County, Nevada, from the Cofor a series of payments and work commitments (See Radius Gold NR dated June 14, 2016). Radius completed the nebaseline studies in 2017 to satisfy the U.S. Forest Service permitting requirements and are finalizing steps to getting the required bonding in place. Drilling is planned in the summer. Spring Peak is a well preserved low-sulfidation, epitherm system in the Walker Lane structural corridor near the Aurora, Borealis, and Bodie deposits. Spring Peak contains wid gold on surface, in banded veins with grades up to 35 g/t Au. Radius has conducted rock chip and soil sampling and a survey, and has developed drill targets looking for subvertical high-grade veins as feeders to the sinter terraces. Drillin project conducted more than 30 year ago consisted of very shallow and mostly vertical holes, which contained anomalo in most holes and individual samples up to 1.93 g/t Au, but did not test the system for the deeper, high-grade bonanza potential.

Robert Felder, President and CEO states, " It is exciting to begin the year with strong partners actively exploring of our projects and having firm plans to drill at least 7 of these projects during 2018. We continue to generate and acquiprojects, actively market to attract more funding partners and remain committed to creating shareholder value through discovery. "

About Renaissance Gold Inc.

Renaissance Gold Inc. is a western US focused prospect generator utilizing a joint venture business model. RenGold at the extensive exploration experience and high-end technical skills of its founders and team members to search for and high quality precious metal exploration projects that are then offered for joint venture to industry partners who provide exploration funding. RenGold maintains a large portfolio of gold and silver exploration properties and has entered into description agreements including those as AuEx. On May 29, 2017, the Company acquired Kinetic Gold Corp. and its subsidiaries which hold various exploration properties located in Nevada. RenGold's objective is to consistently projects into exploration agreements, testing as many drill targets as possible and providing maximum exposure to such through discovery.
