

Goldrea Closes First Tranche of Private Placement and Provides Update

28.02.2018 | [GlobeNewswire](#)

VANCOUVER, Feb. 28, 2018 - [Goldrea Resources Corp.](#) (“Goldrea” or the “Company”) (CSE:GOR) (Frankfurt:GOJ) (Pink Sheets:GORAF) announces the closing of the first tranche of the private placement announced in its news release dated February 13, 2017. The Company has closed \$145,000 (725,000 units.) Funds will be used for general working capital.

Goldrea provides the following update to the press releases dated December 15 and 19, 2017. The Company is continuing in due diligence of Tabu Investments Inc. (“Tabu”), a private reporting company incorporated under the laws of British Columbia. Tabu has, and is in the process of securing interest in different businesses, and as such the due diligence process has extended the time necessary to finalize a binding agreement. Along with the due diligence, Tabu is providing an independent valuation of the company. The arms-length evaluation is expected to be complete within a month. In anticipation of this, both companies are moving forward with fundamental advancement of future growth. This is reflected in the acquisitions Tabu has announced in recent weeks, available on SEDAR. The Company will provide further updates as information becomes available.

The Company is evaluating its current mining portfolio to determine work programs to conduct this coming summer. The Golden Triangle in particular has been very active this past summer. Goldrea and its consulting geologist will be in a position to evaluate a work program for the Cannonball project this year. The Lift property, a lithium project in Clayton Valley, is also under review.

ON BEHALF OF THE BOARD

“James Elbert”

James Elbert
