Videos provide insight into how company executives think in the current business environment. To see the latest View from the C-Suite videos visit www.tmxmoney.com/en/news/csuite.html)

About Juggernaut Exploration Ltd. (TSXV: JUGR)

[Juggernaut Exploration Ltd.](#) engages in the acquisition, exploration, and evaluation of mineral resource properties in Canada. The company primarily explores for gold and copper ores. It has 100% interests in the Midas property covering an area of 16,106 hectares located in the Skeena Mining District, British Columbia; and the Empire property covering an area of 9,852 hectares located in the Omineca Mining District, British Columbia. The newly discovered 5.5 km long Inca Trend is located on the Empire property, which is only 8 km to major power, CN rail with road access and is hosted like Midas in the world class geological terrane of northwestern British Columbia. This discovery was also made as a result of rapid glacial and snow-pack recession in the region. One of many zones discovered is Rockstar, it measures 1000 x 550 m with 450 m of mineralized vertical relief, remains open in all directions. Rockstar is located along the newly discovered 5.5 Km long Inca Trend that contains widespread polymetallic mineralization in bedrock and potassic and propylitic alteration indicating a large porphyry feeder source at depth. Inca provides for multiple strong drill targets for the upcoming inaugural 2018 drill program. The company was formerly known as Ardonblue Ventures Inc. and changed its name to [Juggernaut Exploration Ltd.](#) in October 2017. [Juggernaut Exploration Ltd.](#) was incorporated in 2006 and is based in Vancouver, Canada.
