

GGX Gold Completes Holes 4, 5, 6, 17.91 Meter Shear Zone, Intersected Below Vein in Hole 6, Greenwood BC

16.03.2018 | [FSCwire](#)

Vancouver, British Columbia (FSCwire) - [GGX Gold Corp.](#) (TSXV: GGX), (OTC Pinks: GGXXF), (the Company or GGX) is pleased to announce the completion of holes 4-6 from the Phase III Diamond Drilling program on the Gold Drop Property near Greenwood, BC. The program currently underway is targeting the COD Vein in the Gold Drop Southwest Zone.

The holes four through six of the current program have now been successfully completed for a total of 188.64 meters. Hole 4 and 5 holes were designed to further delineate the COD vein at depth. Hole 6 was drilled from the east side of the vein to identify possible cross structures. All of the reported intervals are core length.

DDCOD18-4 intersected two mineralized zones totaling 3.83m core length with a 1.18m quartz vein interval.

DDCOD18-5 intersected a 3.86 m mineralized zone surrounding the 1.08 m COD Vein intercept. Two other silicified and mineralized zones were also intercepted earlier in the hole. These two zones total 1.59 m core length.

DDCOD18-6 intersected a 1.7 m mineralized zone consisting of 0.9 m of vein and 0.8m extremely silicified and mineralized wall rock. 1.5m of mineralization and silicification was encountered deeper in the hole. A 17.91m shear zone was intercepted between 52.1-70.01m in the hole. The shear zone consists of altered, sometimes bleached rust stained rock. Several silicified zones, sometimes mineralized with pyrite, have been intercepted. A total of 6.3 m of moderate to strong silicification was intercepted in the shear zone.

The core is currently being split and securely packaged for shipment to ALS laboratories in Vancouver, BC. There the core will be analyzed for gold by Fire Assay and for 48 multi element Four Acid and ICP-MS. Quality control (QC) samples are being inserted at regular intervals.

The Phase III drilling is ongoing. Additional holes are planned under the southern extent of the 2017 trench, including some holes targeting the vein from the east side.

David Martin, P.Geo., a Qualified Person as defined by NI 43-101 and consultant for GGX, is responsible for the technical information contained in this News Release.

Forward Looking Information

This news release includes certain statements that constitute “forward-looking information” within the meaning of applicable securities law, including without limitation, the Company’s information and statements regarding or inferring the future business, operations, financial performance, prospects, and other plans, intentions, expectations, estimates, and beliefs of the Company. Such statements include statements regarding the completion of the proposed transactions. Forward-looking statements address future events and conditions and are necessarily based upon a number of estimates and assumptions. These statements relate to analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as “expects” or “does not expect”, “is expected”, “anticipates” or “does not anticipate”, “plans”, “estimates” or “intends”, or stating that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved), and variations of such words, and similar expressions are not statements of historical fact and may be forward-looking statements. Forward-looking statements are necessarily based upon several factors that, if untrue, could cause the actual results, performances or achievements of the Company to be materially different from future results, performances or achievements express or implied by such statements. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which the Company will operate in the future, including the price of gold and other metals, anticipated costs and the ability to achieve goals, and the Company will be able to obtain required licenses and permits. While such estimates and assumptions are considered reasonable by the management of the Company, they are inherently subject to significant business, economic, competitive and regulatory uncertainties and risks including that resource exploration and development is a speculative business; that environmental laws and regulations may become more onerous; that the Company may not be able to raise additional funds when necessary; fluctuating prices of metals; the possibility that future exploration, development or mining results will not be consistent with the Company’s expectations; operating hazards and risks; and competition. There can be no assurance that economic resources will be discovered or developed at the Gold Drop Property. Accordingly, actual results may differ materially from those currently anticipated in such statements. Factors that could cause actual results to differ materially from those in forward looking statements include continued availability of capital and financing and general economic, market or business conditions, the loss of key directors, employees, advisors or consultants, equipment failures, litigation, competition, fees charged by service providers and failure of counterparties to perform their contractual obligations. Investors are cautioned that forward-looking statements are not guarantees of future performance or events and, accordingly are cautioned not to put undue reliance on forward-looking statements due to the inherent uncertainty of such statements. The forward-looking statements included in this news release are made as of the date hereof and the Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by applicable securities legislation.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
