

BTU Contracts Aurum to Drill Galway Gold Project, Ireland

21.03.2018 | [FSCwire](#)

Vancouver, British Columbia (FSCwire) - [BTU Metals Corp.](#) (BTU-TSX:V) reports that Aurum Exploration Services has been contracted to manage the upcoming drill program at the Lee Property located in Galway, Ireland.

Aurum is a premiere geological consulting firm based in Ireland with offices located 10 km from the Galway properties. The principals at Aurum have conducted extensive work on BTU's Galway properties over the years including the recently completed program. Aurum brings specific experience and qualifications, including:

- Ireland-based with strong history on the properties
- Sound relationships with regulators and the community
- Experience with the Dalradian Supergroup hosted mesothermal auriferous vein structures as found at Lee
- Extensive experience in designing and running exploration programmes through to 43-101 compliancy status.
- Management of up to four rigs for approximately 45,000m of drilling at the [Dalradian Resources Inc.](#) (TSX: DNA) at the high-grade Curraghinalt gold deposit, within the same Dalradian Supergroup formation and located 145 km northeast of BTU, which added significantly to the resource. This included the management, planning and execution of drilling and field exploration programmes; and developing the first comprehensive geological and resource model in conjunction with Micon International.

BTU CEO Paul Wood commented, "The formal addition of Aurum to the drilling at Lee and continued exploration on additional target areas, including Glenlusk, will bring valuable depth of expertise, local knowledge and relationships to the upcoming program."

Doug Hunter, P.Geol, is the qualified person as defined by National Instrument 43-101 who has examined and described the mineral occurrences within [BTU Metals Corp.](#) Irish prospecting licenses and is responsible for reviewing and approving the technical contents of this press release.
