

Aquila Resources Files Technical Report for Back Forty Project

26.03.2018 | [CNW](#)

Shares Outstanding: 332,049,056

TORONTO, March 26, 2018 /CNW/ - [Aquila Resources Inc.](#) (TSX: AQA) ("Aquila" or the "Company") announced today that it has filed a technical report for its Back Forty Project in Michigan. The technical report is entitled "Updated Mineral Resource Estimate and Technical Report on the Back Forty Project, Michigan, USA" and was prepared by P&E Mining Consultants Inc. and is dated effective February 6, 2018 (the "Technical Report").

The Technical Report was prepared in accordance with National Instrument 43-101 – Standards of Disclosure for Mineral Projects and supports the disclosure outlined in Aquila's news release dated February 7, 2018. The Technical Report is available under the Company's profile on SEDAR at www.sedar.com and on its website at www.aquilarresources.com.

ABOUT AQUILA RESOURCES

[Aquila Resources Inc.](#) (TSX: AQA) is a development-stage company with strategic assets in the Great Lakes Region. The Company's experienced management team is currently focused on advancing permitting and engineering activities for its 100%-owned zinc- and gold-rich Back Forty Project in Michigan.

Aquila's flagship Back Forty Project is an open pit volcanogenic massive sulfide deposit with underground potential located along the mineral-rich Penokean Volcanic Belt in Michigan's Upper Peninsula. The Project contains approximately 1.1 billion pounds of zinc and 1 million ounces of gold in the Measured & Indicated categories, with additional upside potential. Currently Aquila is working to secure the final State permit required to build and operate Back Forty while completing a Feasibility Study.

The Company has three other exploration projects: Reef Gold Project located in Marathon County, Wisconsin, the Bend Project located in Taylor County, Wisconsin and Aquila Nickel located in the Upper Peninsula, Michigan. Reef is a gold-copper property and Bend is a volcanogenic massive sulfide occurrence containing copper and gold.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This press release contains certain forward-looking statements within the meaning of applicable Canadian securities legislation. In certain cases, forward-looking statements can be identified by the use of words such as "plans", "expects" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" and similar expressions suggesting future outcomes or statements regarding an outlook.

Forward-looking statements relate to any matters that are not historical facts and statements of our beliefs, intentions and expectations about developments, results and events which will or may occur in the future, without limitation, statements with respect to additional upside potential of the Back Forty Project, the status of a feasibility study in respect of Back Forty, the permitting status of the Back Forty Project and Aquila's future exploration and development plans.

These and other forward-looking statements and information are subject to various known and unknown risks and uncertainties, many of which are beyond the ability of Aquila to control or predict, that may cause their actual results, performance or achievements to be materially different from those expressed or implied thereby, and are developed based on assumptions about such risks, uncertainties and other factors set out herein. These risks include those described under the heading "Risk Factors" in Aquila's most recent annual information form and its other public filings, copies of which can be under Aquila's profile at www.sedar.com. Aquila expressly disclaims any obligation to update forward-looking information except as required by applicable law. Such forward-looking information represents Aquila's best judgment based on information currently available. No forward-looking statement can be guaranteed and actual future results may vary materially. Accordingly, readers are advised not to place undue reliance on forward-looking statements or information. Furthermore, Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.
