28.03.2018 | [GlobeNewswire](#)

DENVER, March 28, 2018 (GLOBE NEWSWIRE) -- [U.S. Energy Corp.](#) (NASDAQ:USEG) ("U.S. Energy" or the "Company") today announced financial and operational results for the year and fourth quarter ended December 31, 2017. In addition, the Company announced its estimated proved reserves as of December 31, 2017.

## Highlights

- 2017 Production of 186,676 BOE, or daily production of 511 BOEPD;
- 4Q2017 Production of 35,789 BOE, or daily production of 389 BOEPD;
- 2017 Oil and gas revenue of \$6.6 million;
- 2017 Lease operating expenses of \$2.4 million;
- Proved Developed Reserves of 824,115 BOE at December 31, 2017;
- SEC Pricing pre-tax PV-10 of \$9.3 million at December 31, 2017;
- Cash and cash equivalents of \$3.3 million at 12/31/2017; and
- Current shares outstanding of 12,440,927.

## Fourth Quarter 2017 Transaction Highlights

- On October 5, 2017, U.S. Energy divested certain Williston Basin non-operated assets in consideration for the elimination of \$4.0 million in outstanding liabilities and payment to U.S. Energy of \$2.0 million in cash. The divested assets had reserves of 607 BOE and a PV-10 of \$5.2 million.
- On December 29, 2017, U.S. Energy and APEG Energy II, L.P. ("APEG") closed an exchange agreement pursuant to which APEG exchanged \$4,463,380 of outstanding borrowings under the Credit Facility for 5,819,270 new shares of common stock of U.S. Energy. The closing of the transaction was approved by the Company's shareholders on December 27, 2017.

## Management Comment

David Veltri, U.S. Energy's Chief Executive Officer, stated, "2017 was a year of tremendous accomplishments for U.S. Energy. Through the refinancing of our credit facility and subsequent debt-for-equity exchange combined with the 4Q2017 asset divestiture, U.S. Energy has drastically improved its balance sheet and liquidity profile. The results of these efforts have finally begun to show up on our 2017 year-end financial statements and we expect to see continued improvements in both our operating margins and profitability going forward. We are pleased by the initial results targeting the Georgetown formation on our South Texas acreage position, and we will continue evaluating near term well participation opportunities on our acreage position in the area. Our growth targets for 2018 remain unchanged and with favorable commodity prices we feel confident about the future. We will look to continue to expand our acreage position in our existing, highly economic areas of North Dakota and South Texas while also looking to grow through significant acquisitions that will allow for a high return and focused development program."

#### Operations Update

CML Beeler Ranch #1H: The CML Beeler Ranch #1H was spud in the fourth quarter 2017 and came on line in January 2018. The well is located in our Zavala county leasehold in South Texas and is a dual lateral with each lateral comprising approximately 10,000 feet of open hole completion within the Georgetown formation. The completion resulted in an initial 24-hour max IP rate of 1,046 barrels of oil and 1,085 mcf of natural gas and a 30-day average IP of 708 barrels of oil and 850 mcf of natural gas. U.S. Energy has an approximate 7% WI in this well. The total drill and complete cost of the well was \$3.4 million. Additional wells are being planned in 2018 by the operator which could include our acreage and participation.

#### Full Year 2017 Financial Results

Revenues from sales of oil and natural gas during 2017 were \$6.6 million compared to \$5.7 million during 2016. The year over year increase in revenue is primarily due to the sustained increase in oil prices over the second half of 2017. Revenue from oil production represented 77% of Company revenue during 2017.

Lease operating expenses for 2017 were \$2.4 million compared to \$1.9 million for 2016. This increase was primarily attributed to workover costs associated with bringing producing wells back online due to improved economic returns driven by increased commodity prices.

General and administrative cash expenses for 2017 were \$3.0 million compared to \$2.7 million for 2016. The year over year increase is primarily associated with professional fees incurred during negotiations with our legacy credit facility lender over the first half of 2017.

Adjusted EBITDA was (\$0.3) million for 2017 as compared to \$0.0 million for 2016. Net Loss was \$1.4 million for 2017 compared to \$14.1 million for 2016. Adjusted EBITDA is a non-GAAP financial measure. For additional information please refer to the reconciliation of this measure at the end of this news release.

## Credit Facility Update

As of December 31, 2017, the Company was in compliance with all financial covenants and fully conforming with all requirements under its credit facility.

Credit Facility Covenants	Required Covenant Ratio	U.S. Energy at 12/31/2017
Current Ratio	Greater than 1.0 to 1.0	3.7 to 1.0
PDP to Secured Debt*	Greater than 1.2 to 1.0	9.9 to 1.0

\*Represents outstanding indebtedness of \$0.9 million under the Credit Facility at 12/31/17.

\*\*U.S. Energy had a \$0.6 million balance held under "current portion of long term debt" on the Company's balance sheet at December 31, 2017 which was associated with the debt-for-equity exchange. This amount was paid in the first quarter of 2018.

## Update to Hedging Activity

U.S. Energy hedges portions of its expected production volumes to increase the predictability of its cash flow and to help maintain a strong financial position. As of December 31, 2017, U.S. Energy had an unrealized loss on commodity price derivatives of \$0.2 million. The following table summarizes U.S. Energy's open crude oil and natural gas derivative contracts scheduled to settle after December 31, 2017.

	Action	Begin	End	Quantity (bbls/d)	Price
Crude oil price swaps	Bought	1/1/18	6/30/18	150	52.20

	Action	Begin	End	Quantity (mcf/d)	Price

In addition to reporting net income (loss) as defined under GAAP, we also present net earnings before interest, income taxes, depletion, depreciation, and amortization, accretion of discount on asset retirement obligations, impairment of oil and natural gas properties, warrant revaluation (gains) and expenses, net gain (loss) from mark-to-market on commodity derivatives, cash settlements received (paid), standby rig expenses and non-cash expenses relating to share based payments recognized under ASC Topic 718 ("Adjusted EBITDA"), which is a non-GAAP performance measure. Adjusted EBITDA consists of net earnings after adjustment for those items described in the table below. Adjusted EBITDA does not represent, and should not be considered an alternative to GAAP measurements, such as net income (loss) (its most directly comparable GAAP measure), and our calculations thereof may not be comparable to similarly titled measures reported by other companies. By eliminating the items described below, we believe the measure is useful in evaluating its fundamental core operating performance. We also believe that Adjusted EBITDA is useful to investors because similar measures are frequently used by securities analysts, investors, and other interested parties in their evaluation of companies in similar industries. Our management uses Adjusted EBITDA to manage our business, including in preparing our annual operating budget and financial projections. Our management does not view Adjusted EBITDA in isolation and also uses other measurements, such as net income (loss) and revenues to measure operating performance. The following table provides a reconciliation of net loss to Adjusted EBITDA for the periods presented:

	2017	2016	2015
