

Nouveau Monde Graphite Inc. to Webcast, Live, at VirtualInvestorConferences.com April 11

11.04.2018 | [CNW](#)

Company invites individual and institutional investors as well as advisors to attend interactive real-time virtual VirtualInvestorConferences.com

SAINT-MICHEL-DES-SAINTS, Quebec, April 10, 2018 /CNW/ -- [Nouveau Monde Graphite Inc.](http://www.nouveaumondegraphite.com) (OTCQX: NMGRF, TSX: NOU), based in Canada, focused on graphite mining and processing, today announced that Eric Desaulniers, President and CEO of Nouveau Monde Graphite, will present live at VirtualInvestorConferences.com on April 11, 2018.

DATE: Wednesday April 11, 2018
TIME: 1:30 PM ET
LINK: <https://tinyurl.com/0418prepr>

This will be a live, interactive online event where investors are invited to ask the company questions in real-time - both in the presentation hall as well as the association's "virtual trade booth." If attendees are not able to join the event live on the day of the conference, an on-demand archive will be available for 90 days.

It is recommended that investors pre-register and run the online system check to save time and receive event updates.

Learn more about the event at www.VirtualInvestorConferences.com.

About Nouveau Monde Graphite Inc.

In 2015, Nouveau Monde discovered a graphite deposit on its Tony claims block, part of its fully owned Matawanie graphite property. This discovery recently gave rise to the publication of results from a Prefeasibility Study (PFS), released on October 25, 2017, by Nouveau Monde. This PFS demonstrated strong economy with a planned production of 52,000 tpy of high purity flake graphite concentrate, and a mine life of 27 years. The Probable Mineral Reserves identified over the West Zone of the Tony Block totals 33.0 Mt grading 4.39 % Cg. These Reserves are prepared in accordance with the Canadian Institute of Mining, Metallurgy and Petroleum Definitions Standards for mineral resources in concordance with National Instrument 43-101 – Standards of Disclosure for Mineral Projects (« 43-101 »). The Matawanie graphite project is located in the municipality of Saint-Michel-des-Saints, approximately 150 km north of Montreal. It benefits from direct access to a workforce and the appropriate infrastructure to operate, including abundant and renewable hydroelectric resources. Nouveau Monde's team members are developing this project with the outmost respect for the neighboring communities, while targeting a low environmental impact footprint.

The technical information in this news release was prepared by Bernard-Olivier Martel, P.Geo, and reviewed by Eric Desaulniers, M.Sc., P.Geo, President & CEO of Nouveau Monde Graphite. Both are Qualified Persons as defined by NI 43-101.
